Open. This material does not circulate and may be used in-house only.

PREFERRED CITATION

Name of item, Collection identifier, box #, folder #, Collection Title, South Dakota State University Archives and Special Collections, Hilton M. Briggs Library, Brookings, South Dakota.

ABSTRACT

The Department of Economics offers undergraduate academic programs in Economics (with an optional Business specialization), Agricultural Business, Agricultural and Resource Economics, and Entrepreneurial Studies. The collection consists of reports by faculty and graduate assistants for the Economics Department, the Agricultural Experiment Station, and for the Cooperative Extension Service. Also included are general office records produced by the Economics Department.

HISTORICAL NOTE

Work in general economics dates back to the beginning of instructional work at South Dakota State College, when it was taught under the name of political economy. Later, it was taught with history and philosophy, but finally achieved full independence when, in 1921, the Department of Farm Economics was created as a separate department. Development in this department consisted mainly

of teaching, research and extension. Over the years, the Economics Department has established itself as a pioneer in the scientific study of the economic problems of South Dakota.

According to the 1996-1998 Undergraduate Bulletin, the Economics Department trains students to apply economic concepts and techniques for decision-making in fields such as agricultural business, agricultural economics, economics and business. The objectives of the curricula taught in the department are to present the general economic principles necessary to understand the complexities of the economic business world and provide a foundation for graduate work in economics, agricultural economics, business administration, management, finance, law and other related areas of study.

The Economics Department offers majors leading to a Bachelor of Science degree in either agricultural business or agricultural economics from the College of Agriculture and Biological Sciences. The department also offers a major in economics leading to a Bachelor of Science degree from the College of Arts and Science. Within the economics major, a student can choose an option in business economics. Minors are also available through the department in accounting, agricultural business, agricultural marketing and economics. The programs provide students with a background to pursue careers in farm and ranch management, agricultural finance, agribusiness, banking, business finance, business management, sales and marketing, government service and related fields.

CONTENTS NOTE

This collection is composed of administrative material and various publications. The administrative material includes newsletters, programs, pamphlets, reports, and posters. The publications are composed of material created by the Economics Department for the South Dakota Agricultural Experiment Station and the Cooperative Extension Service, pamphlets, research reports, and staff papers. These publications cover economic topics related to agriculture and farm and ranch management.

ACCESS

CONDITIONS GOVERNING ACCESS

This collection is open to researchers without restrictions. The materials in the Archives do not circulate and may be used in-house only.

Researchers conducting extensive research are asked to make an advance appointment to access archival material. Please call or e-mail prior to visiting the collection and indicate as much detail as possible about a particular topic and intended use.

PHYSICAL ACCESS

South Dakota State University supports access to the materials, published and unpublished, in its collections. Nonetheless, access to some items may be restricted as a result of their fragile condition or by contractual agreements with donors.

RIGHTS

COPYRIGHT NOTICE

Researchers may quote from the collection under the fair use provision of the copyright law (Title 17, U.S. Code). Requests to publish should be arranged with the SDSU Archives and Special Collections.
