The Aggie News and the Class of 1915: It was my privilege the first part of October to visit the South Dakota State College and School of Agriculture. I found the campus of the old college, and the School of Agriculture, which I visited, was exactly as old and on the second floor I found the old campus but the new college is the School of Agriculture. It was, indeed, a pleasure to meet Professor Scrabro who has taken such a great interest in the school and its students, so that it is becoming a stronger institution each year.

The principal function of the members of the School of Agriculture is to provide a budget for the school. The budget is set by the Board of Trustees, which is composed of five members. The budget covers all aspects of the school, from the cost of operating the school to the cost of maintaining the facilities. The budget is reviewed and approved by the Board of Trustees each year.

The budget is divided into two parts: the operating budget and the capital budget. The operating budget covers the cost of operating the school, such as salaries for faculty and staff, supplies, and maintenance. The capital budget covers the cost of purchasing new equipment and facilities.

The budget is reviewed and approved by the Board of Trustees each year. The trustees review the budget and make any necessary changes. The budget is then presented to the university for final approval.

The budget is a critical component of the school's operations. It helps to ensure that the school has the resources it needs to provide a quality education to its students. Without a budget, the school would not be able to provide the necessary resources for its students.

The budget is also important for the school's fiscal health. If the budget is not balanced, the school may not have enough money to operate. This could lead to budget cuts, which could negatively impact the quality of education provided to students.

GNOTHUT LITERARY SOCIETY OF SCHOOL OF AGRICULTURE

The literary of today is somewhat different from what it was in some respects as the day, the social hour has been abolished. The day has been changed from Friday to Tuesday evening. The university has set the hour at 8:00 p.m., and has nothing but strictly a literary program for one hour. The literary as a whole has a decided leaning toward the past than it had the past year. You all know that in previous years many members who came just for the social activities of the literary society have gone away. This social hour also dislay with the dead hour, and with the literary hour. Of course, this decrease in the membership from about fifty to about twenty is quite significant. Recently is an active group and are the literary is necessarily can only from their literary work. This is just what they put into the literary. This is shown by the length and consists of debates, discussions, talks, readings, music. The literary has been the place where students have at least two weeks to work on an argument. Our literary members believe in that in order to have a good literary one must have had discourse on the literary attitude of life. Secondly, the literary is a place where you have a good literary because it is up and coming. One can tell upon visiting the literary work in the members are out for business because the way the programs are carried out. There seems to be a great interest in furthering literary work. This is shown by the number of Greater Aggie members that are trying out for interdeacy work. I think that a large part of the progress of the literary work is the work of the literary society. We hope that it will make it a better achievement.

Among these changing places the literary has also become a place where we hope to make it a better achievement.

The girls have a very physical team organization and the team was organized in the past year.

A mixed chorus of about one hundred voices has been organized—also other music classes. They are making much progress. The development of the orchestra is something that we have to demand special mention.

There has been many changes made, especially on the intercollegiate level and we have to demand special mention. We have been the class of sixty-one, the largest sen-

or class that the School of Agriculture has ever had. It will, indeed, be a pleasure and honor to wear a ring of such high standing. We can carry as all a souvenirs of high standing the path of our life's work.

As we members of the class of sixty-nine, we are the class of sixty-one, the first senior class that the School of Agriculture has ever had. We have been the class of sixty-one, the largest senior class that the School of Agriculture has ever had. We will, indeed, be a pleasure and honor to wear a ring of such high standing. We can carry with us as a souvenirs of such high standing the path of our life's work.

NEWS FROM OUT OVER THE STATE

Kentosh Soper, '15, is living on a farm north of Draper, S. D.

Foster Payne '15, was one of the Brown County delegates to the State School Bureau convention at Huron.

Thos. Terney is the Scout Master for the Broadlands Boys Scout troop. Mr. Terney has a dozen boys taking the work.

A baby girl arrived during Oct. to brighten the home of Mr. and Mrs. Thos. Terney of this village. Congratulations and best wishes.

Ralph Bischoff has been selling Ford's past the summer at Huron. Ralph was at home here, so it is quite easy for him to get rid of the Rivieras.

Rhea Stitt, '23, is now at the State Agricultural College at Amherst, Mass, where he is working toward his Masters Degree.

Mr. and Mrs. Homer Richards are helping Homie's parents run the home farm. They are going to cut a small distance from the Richards' farm home, which makes a very fine arrangement for both.

Howard Vollommeiner, '20, is the new owner of ranch land and vicinity. Howard has been in control of the property and should make a good club leader. Ross Cumming, '22, was the club leader the past year and had a very successful year.

Alfred Swenson, '18, has been one of the large stock manufacturers of Beadle county the past year, but we understand that he is going in the implement business in Huron as he and Carroll Stitt have secur-

Did you notice the Aggie Alumni float in the Day Parade this year, or was it conspicuous by its absence, for we don't think the Alumni should monopolize the whole parade but we should be represented, just to show our loyalty to old State if for no other reason. And here is hoping that hereafter the Aggie Alumni will be represented in the parade.

Did you ever hear of Bloomfield, So. Dak.? No! I don't suppose you ever have—as it has recently come into existence and hence cannot be found on a map. This new town is located 18 miles north and 6 miles east of Huron, was started by Carroll Stitt, '18, last spring and is doing a thriving business. It consists of a combination gas station, cream station and general store.

Yes, it is rather late now for the Aggies to start with harvesting corn, but the legislature and Gov. Bulow to appropriate funds for the construc-

Verner Sallquist, '28, Hitchcock, is president of the Aggie Y. M. C. A. cabinet.

Members of other School of Ag-

James Jensen, '16, is in practice employed by Armour & Company at Huron. Mr. Jensen is planning on moving on a farm at Lake Preston in the spring.

Ted Shults, '24, Hetland, dropped in for a few minutes chat with Beadle county friends and was very much pleased to be back to Madison, Wisconsin, where he is studying for his doctorate degree.

The object of the Aggie News is to keep the alumni and students posted on the work and progress of the School of Agriculture to keep former students and friends in touch with each other.

Members of the graduating class of '28, attending the Christmas party were: Lyle Kennedy, '21, Lincoln; Albert Konstant, Marvin; Benjamin Reifel, Parmelee; Thurual Larsen, of Brookings, (Creamery Coast).

Lake Edgewood, Edwin Killian, '24, Farmingdale, (School of Agriculture special); Albert Gumbrecht, '25, Harper Fordyce, '24, Onaka; Oscar Bue, '24, Moville; Jasper Farchill, '25, Edinburg; William Shideler, '26, Clark Stockland, '26, Wakonda; Albert Sander, '24, Redfield; Edwin Hansen, '22, Vermillion.

Minford Hurst, '29, Dupree, reports that an interesting program of work is being carried on in Ziebach county this winter. A corn show and short course will be held in January. This short course is sponsored by State College Extension Service.

Wanted: 400 freshmen in the School of Agriculture at State College. The best way to find out about the school is to ask some of the alumni about it or drop a card to Dad Schroer, Brookings, inquiring about the school in which eighth grade graduates can enter.

Carroll Allcroft after leaving school was in an auto wreck which kept him in the Madison hospital for some time. After leaving the hospital he became reporter for the Madison paper, then the Soo Falls Argus Leader and later sport writer for the Sioux City Journal. He is now in the Philippines Islands doing newspaper work.

A group of Beadle county Aggies gathered at Huron and staged a charivari party at the Ralph Bischoff home, October 6th, in honor of the Mr. and Mrs. James Jensen. Refreshments were served and dances set the style in the Huron school to 9 o'clock a.m. late hour. The group presented Mr. and Mrs. Jensen with a beauti-

THE AGGIE ORCHESTRA

THE SCHOOL OF AGRICULTURE CHORUS

As yet it is a tentative activity but holds a major position in our progress towards a bigger and bet-
ter school.

This plan of division has proved valuable in the extensive program which is a continuation of the work by the Student's Association in the past years. It is only through the splendid co-operation of students working for their own interests that their school can progress. It is the aim of the present Board of Central acting for the Student's Association, that this term will be a real stepping stone in our progressive march toward a bigger and better School of Agriculture.

Prof. George Gilbertson makes Important Find

Under the direction of George Gilbertson, assistant professor of entomology, what is thought to be the first effective and practical control ever found for the plum tree borer has been worked out during the last two years at State college.

This method makes it possible to spray the plum tree to control South Dakota's worst pest which is responsible for millions of dollars worth of damage in the United States every year. It is said to be an unusual but simple effective in application as a remedy.

James Jensen asked Tom Terney "How is the girl?" Tom replied "She is a howling success."
Form Gold A Club at School of Agriculture

Constitution Drawn and Plans Made for Active Organizations.

A Gold A Club has been formed at the S. D. S. A. Limited to those who have had a year of residence. President of the club is C. Paul J. Scarrow of the School of Agriculture. This club was organized for the purpose of making the club plans and organi-

zation banquet was held in Febru-
ary, 1928.

The officers are Theodore Lar-
non, president; Platte, 38; Ralph Trumpp, vice-president, Bruce, 30; Lyle C. Stist, historian, Brook-

grove, 30; Roy J. Kan, reporter, to forty charter members. They are all students who are responsible for the club to work more efficient. Several meetings have been held in the Agriculture Office immediately.

The alumni have given Miss Maurice L. Murray, who is twenty-four, a very lovely 1928.

The farming here is mostly in-

teresting, with the yields of corn and hay, making a real money crop. It is growing fast, and will be a real money crop in the future. We have been very successful in our farming this year, and we have helped to make the soil richer and the crops more abundant. We have also done a great deal of work on the farm and have been able to get more from the farm than we ever have before.
