Collegian Index 1998-2000

Introduction

This index provides subject access to the South Dakota State University *Collegian*. Included are all articles written by the newspaper staff as well as wire-service news stories. Excluded are brief announcements and notices.

This index cumulates two publishing years, covering September 1998 through May 2000. Indexes are published at the end of every other academic year.

Although this is a computer-assisted index, subject headings are not automatically assigned from key words in headlines. Whenever the headline words do not accurately reflect the content of the article, appropriate subject headings are assigned. Names of the editor, columnists, and staff writers on the opinion page are included in subject headings. Excluded are names of those writing letters to the editor and other reporters.

Subject entries are limited to eighteen characters, including spacing. Thus, abbreviations and incomplete headings are sometimes necessary. For example, Student Association elections are listed as SA-ELECTIONS. A cross reference is made whenever necessary (e.g.: STUDENTS' ASSOCIATION see SA). Place names in subject entries are also abbreviated to save space (cities and states in two letters, countries in three letters) but are spelled out in the notation.

The following abbreviations are used throughout the index:

An asterisk (*) at the beginning of a notation indicates that an illustration accompanies the story.

(L) at the end of a notation denotes a letter to the editor.

(ED) at the end of a notation signifies an editorial.

Whenever space allows, a reporter's name is included in parenthesis at the end of a notation.

Entries are arranged chronologically under each subject heading. The input record is composed of three fields:

1. Subject headings—e.g.: CULTURAL DIVERSITY

2. A twelve-digit code containing the date (month, day, and year) and pagination (section, page, and column)—e.g.:

11 = November

04 = Day

1998 = Year 11/04/98

A = Section

04 = Page

2 = Column A042

* = Illustration

3. The headline notation—e.g.: "INTERNATIONAL NITE EDUCATES STUDENTS"

Thus, an entry composed of the above units would read:

CULTURAL DIVERSITY 11/04/98 A042 INTERNATIONAL NITE EDUCATES STUDENTS
