PREFACE

March 1988

This report lists the publications prepared by the faculty and graduate students in the Economics Department at South Dakota State University in the course of their research, extension, and teaching duties.

All types of publications are included and are arranged by the basic areas of concentration in the department: agricultural marketing, farm and ranch management, energy and water resource development, and rural development and public affairs. Publications for the period January 1984 - March 1988 are included in this report. An earlier report covered publications for the period of 1980-1984. A small number of copies of the earlier report are available and can be secured by writing the department.

We hope you will find this report and the publications useful.

Sincerely,

Ardelle Lundeen
Professor and
Department Head
