Improvements in Aggie Girls Dorm

This year the Aggie Girls Annex Dormitory was greatly improved. The fourth floor was remodeled and the Aggie's have their rooms there this term. The ceiling was raised one foot in a two tone effect, the upper half is a cream color and the lower half is off white, giving a bright looking put on where the two colors meet. The floors were varnished arched floors and the rooms have two windows. Two study tables are provided for study. There is also a new linoleum laid in the halls. They are very easy to keep clean. In the hall, the center of the room is now carpeted.

There is a new sewing machine placed in a corner room that was made for the most interesting subject. The room is furnished with table and chairs, and plenty of light.

Tryouts for Aggie Debate Team Will Be Held Soon

Prof. Eddy Urges All Students Interested to Try Out—Last Year’s Team Was Very Successful

Tryouts will be held Thursday, Nov. 6th, at 4:30 p.m. A large number of Aggie students have made known their desire to tryout for the Aggie debate team. Although, but one member of last year’s squad is in school this year there is reason for believing that the Aggies will have another successful year of debate.

Aggies trying out for the squad will be judged on their ability to handle the responsibility of trying out. Tryouts are, however, open to all students, rather than anyone who may have been disqualified before.

The last year’s team was very successful and carried a good tradition. The Aggies have maintained a good reputation with high school teams. The team—Gayl Kochenderfer, Allison, Mont., stated of one of the members of the teams, was Norman Bergman South Shore, and Abian Yeous, St. of the Aggie girls who graduated in the class of ’26. The only one of the girls who were on the team this year is—Gayl Kochenderfer.

The subject for debate this year is—Resolved; That the chain store systems are detrimental to the best interests of the country. This is the same subject selected last year.

To help put this across and make it a success, the cooperation of all the girls is requested. We believe this All Aggie Day the most successful ever held on the campus.

Much Interest in Music Is Shown by Aggie Students

The fact that students of the School of Agriculture are greatly interested in music is shown by the large enrollment this term.

There has been a constant increase in the number of students registered in the music course. The majority of the students are either enrolled in music classes, or are members of the band or orchestra.

A program which is under the direction of Miss Ruppel, was organized shortly after the opening of the year and the number of students interested in this work and became members, came back to school hundred members in the chorus. An opera was to be put on sometime in the near future by this group; it is being looked forward to with much interest.

The orchestra was organized some time ago with the largest membership ever recorded in the history of the school. Over twenty pieces in the orchestra at that time. From these organizations there is instruction given, on various instruments. They have the benefit of those who wish to learn to play.

Private instruction is given in piano playing at Roya." There are several students taking piano at the present time and many more are interested. They have found their reasons have not been able to do so.

In view of these facts, it is evid- ent that the students are very interested in music here in the School of Agriculture.

Coffin Nub Club Gave Party for Freshman Class

The Coffin Nub Club gave a Sophomore Freshman Class Party on Friday night Nov. 7.

The purpose of this club is to give a farewell to the freshmen being graduated for tomorrow. In order to be a member of this club a pledge must be signed. This club consists of no less than ten members. The members consist of: Bill Steiner, the leader of the club.

The meeting was then opened to all entertainment committe, consisting of Eila Heimann, (Continued on page four)

Social Activities of School Year Started

The Aggies have a busy year planned for the Freshman Class this year. They plan to take a glance at the line-up. Dances, movies, Foremost, ban- dhe, and the little magazine, The Little International, Allagie Day, class parties and pic- nics, Winter Ball, newspaper, and basketball will be the highlights of the year.

The Board of Control have O.K. the above activities and the dates. These plans are advanced in order to insure success, and capable lead-

Student Grange Holds Its First Meeting Nov 5th

Work is outlined for the first quarter.

The student Grange held its first meeting of the year, on Tuesday, Nov. 5. No new members were taken in at this time.

There was a short business transacted. Several of the mem- bers being given the fourth degree of the Grange, Nov. 14 were discussed. Plans for the coming quarter were discussed. The program.

Charles Groscheke, Maxine Klett and Grace Lathrop are work. It was decided to have a weast on the college grove on Sunday afternoon.

Then, is a cream color and the lower tone of the campus.

A few minutes were spent in nominating new members. Another committee was appointed for nominating new members.

There will be another business meeting and another social meet- ing before break. The next meeting new officers will be elected. All members of the Grange are requested to be present. It is expected that there will be a large gathering of the members taken in at this time.

The picnic and wine roast held in place of the homecoming was enjoyed by all present, the weather being at the right temperature.

Several students sang and played the guitar and mouth organ. There was a good many vocal solos while the rest were eating.

The Coffin Nub Club is an division of the National Grange. The Grange is an outstanding organization. The student Grange is organized to train leaders in the social and political phases of life. The student Grange was organized to train leaders in the social and political phases of life.

The student Grange is the only organization on this campus which gives a training and experience in leadership.

The student Grange is the only organization on this campus which gives a training and experience in leadership.

A Freshman's Impression of the School of Agriculture

I have been here only short time that I do not feel competent to write upon the subject. It seems that there are people who do not care to move in our vocation and that they will be a benefit to us all our lives.

The association with other people is a benefit we can receive.

The physical activities we take part in and the social work we do along with the instruction and the Grange fits us to take our place in the world. We have different sorts of people.

The South Dakota Agricultural School is a state school and so large that what is taught it is very difficult to get to the students.

This is an agricultural country and no matter what line of work we take up in our vocation as a farmer.

We should understand the problems of agriculture better. With the present period of depression the problems of agriculture are likely to be more severe.

The problems of agriculture will be more severe as the period of depression will be more severe.

Sophomore Class

The sophomores have started their activities for the year. They held their first meeting of the year on Wednesday, Octobes 30. At this meeting the fol- lowing officers were elected: Charles Cantwell, President; Paul Shiever, Wessington, Vice-President; Richard Clark, Howard, Secretary-Treasurer.

Aaggie Debate Club to meet on Wed., Nov. 19th

The first meeting of the Aggie Debate Club is scheduled for Wednesday, Nov. 19th. At this meeting the attorneys for the term were elected. The topic for this meeting was: "Resolved: That the Republican party has done more for the good of the people than the Democratic party." The speakers on the affirmative are: Dr. B. T. Wells and James B. Ellsworth. The speakers on the negative are: Bernard Wallin and Merle Hatch. Both sides have been working hard to put together some good information on the subject, and no doubt there will be some very in- teresting material brought to the table. It is unfortunate that this debate could not have been held before the recent election so that both of the political parties could have used the defense as proof why their party should be elected. However, the paper most of the time is a political side, the training and experience the students will receive from this work will be very practical and beneficial to them in the future.

Athletics

There has been a large turn out for the various sports this fall. All the men are working hard in hopes of making their class teams stronger. The Sophomore team is "Bosco" Jimerson is coaching this year. He understands the game thoroughly and the coaching the Aggies will have a very good season.

There are only a few of last year’s first team back but there (Continued on page 16.)

Home Project Work is Worth While to Aggies

To make our educational work practical and worth while it is necessary for us to become acquainted with work and demonstrations into ac- quaint with work and demonstrations into ac-

The purpose of the Home Project Work is to get the student to come on some of the Farm. We thus can help him learn and thus get the benefit of practical experience. The doing of regular amounts of work is demanded as work project.

There are three distinct kinds of Home Project Work, research, study, and practice. They are: Home Im- plementing Projects, Projects. In each of these projects there are different phases that may be carried on.

The Home Life Improvement project is for the purpose of help- ing the students to see their part in the home life program. By ar-

The Home Production is perhaps the most important of all, as the student. This project is carried on for the following purposes: First, to give the student a real experience in solving home problems. Second, to give the Aggies an opportunity to make money for their education. Some of the projects carried on are: selling candy, baking, blankets, making, baking, making, baking, making, baking, (Continued on page four)

Aggies Take Part in Observance of Armistice Day

The Junior R. O. T. C. joined the veteran unit in patriotic observance of Armistice Day by taking part in the parade.

The program began with "Bayeux" the student drum major doing an interpretation of the Armory. The per- formers marched down Medary Ave., then turned up to see the Dean Legion and the High School band. The parade continued past the St. The parade marched up main avenue past the reviewing stand on the main street.

The parade was led by the State college Military Band, the Senior unit of the Jackson C. C. C. Concessions to the Junior unit. The High School Band and the Junior Legion furnished the music. The parade marched past the Coolidge Sylvan Theater.

Dr. Iverson, Mr. Ivenson and Mr. Johnson with a movie and accom- panying music. Mr. Iverson and Mr. Johnson represent the Cham- pion Spark Plug Company.

In the movie they showed a man of silhouette used in the making of insulators. The mine was the large- st of its kind and probably the only one in the United States. The rock is used as a source of oil and fuel for the nearest factory at Detroit. The picture also showed the many processes by which the plug is manufactured. A large number of the Freshman class turned out for the party. A program was given, consisting of a Ranch Jon Snow, Ambrose McPherson, Howard Young. A vocal solo by Olga Schmick, accompanied by Isobella Gubrall. A talk was given by Ruth Seiner, the leader of the club.

The meeting was then opened to all entertainment committe, consisting of Eila Heimann, (Continued on page four)

Problem of Schooling

From Dakota Farmer

It seems that some children can go anywhere you please and come back to you as good and unspoiled as when you sent them out, but it does seem as though more of them come back, if they did not all, with their minds filled with discontent, a craving for fine clothes and a desire to live easy.

We will leave out those who carry their manners a change or a change in the course of a few months, and keep those that sooner or later they will do so. Anyway we all know that temptations are more apt to get to the best of young folks when they first get away from home, and later on, when they have grown older and are better able to understand and judge between good and bad.

Many Work for Room and Board

All have some work. Some of the young folks go to the near-by towns to high school when they have got away from home, and many of them turn out very well. The few high classes plans in the State show that a great number of them work for room and board so they have little time for getting into mischief, and most of them turn out very well.

All the classes tell at the end of the year that the school girl is apt to be over-worked and the boy is apt to be idle. This is not always the case, however.

Many Do Light Housekeeping

Another plan much in vogue here is for several young folks to club together and rent a small house or several rooms and do light housekeeping. This should prove satisfactory; but, as most girls hate to cook, they live on large quantities of ice cream and bushels of vegetables and the result is that they are undernourished and not fit to do their school work. Their health suffers and they are not, as a rule, good standings. They are also apt to have so many "good times" that they often get a proper amount of sleep.

Some Pay for Room and Board

Boys have a hard time finding work outside of school hours in small towns, so unless they live near enough to stay at home and drive into high school it would be better for most of them, unless their folks feel able to pay for room and board for them, to try and get jobs to consider in nine months.

School of Agriculture Best

There are farmers who try and do it, that from the farmers' point of view, the best plan is to send the children to the Short Course in the State School of Agriculture. There are many changes away from home only five months instead of nine and as school starts after the mid-winter holidays they are on hand to help with most of the fall work and are back home again in the coming in time to help with the spring work. This all means a lot on the farm.

And when they are kept so busy doing nine months work in five months they have little time for mischief. It is hard work but not too hard for a child if they have their home to return to. Any other kind of school would be hard to school after finishing common school.

They will tell you that they have "all work and no play." They have their Glue Club, their dog club, and other kinds of clubs and many as a matter of fact the teachers think they can learn things, and many of the workers and school work and all sorts of the teachers are present to see that they have all work and no play. The work, however, is so interesting that they have little chance to learn at home, and some that they just naturally will not bother to learn unless they are made to do so. For instance, girls have to learn to cook and serve, learn what teacher, not a girl

Blessed Country Needs

The "book learning" they get is fitted to the needs of country life than what is taught in high schools. However if the most of their work in the art department class room, and only the actual firing will be done in the new addition, Miss Caldwell explained. It is true that firing the kiln in the new building will only require about 7 hours.

NORTH END OF POWER PLANT TO HOUSE NEW KILN

Industrial Collegians

Workmen are busy this week completing the north-end of the power house here which will house the two college garbage burners, and a special room for the large kiln belonging to the Aggie Club.

Because the kiln, which is now housed in the art department in the administration building, is giving unsatisfactory service on account of the limited draft available, in its present location presents the difficulty of escape smoke making it unpleasant in that section of the building, and a longer period necessary for proper firing which was over 15 hours the last time used, according to Miss Adel Stitt, Caldwell, head of the department.

A fire hazard is also present, Miss Caldwell said.

In its new location the kiln will have unlimited draft through the brick chimney on the power plant roof that it is connected. Sundays, taking the course which uses the kiln will do most of their work in the art department class room, and only the actual firing will be done in the new addition. Miss Caldwell explained. It is true that firing the kiln in the new building will only require about 7 hours.

The School of Agriculture Short Course is the ideal school for farmers' children unless they intend to become teachers or professional people.

Another Form of School

In closing, let me say to the sisters who like to run down to Home Extension Clubs and clubs of these in the art department class room, and only the actual firing will be done in the new addition, Miss Caldwell explained. It is true that firing the kiln in the new building will only require about 7 hours.

The School of Agriculture Short Course is the ideal school for farmers' children unless they intend to become teachers or professional people.

Sixty Alumni Attend Reunion Hobay Day

The business meeting was called to order by President Stitt, Executive of the Class of 1930. The meeting was opened with prayer as follows: Lytle C. Stitt, President; Howard Schutz, Badger, class of 36, vice-president; Clifford Frances, class of 36, secretary-treasurer. Motion made, seconded and passed that Alumni dues be $2.00 per year.

Elwin Guther, Lake Preston, '28, of the Aggie alumni and Alumni and Aggies are invited to be present at the Kampeska picnic at Watertown to be held next June.

Business meeting adjourned for social meeting.

NEILL'S LEATHER GOODS
JUNIOR CLASS

At our final class meeting last spring the class elected four of their officers for the next term the following: Chester Groeschen, Pierre, president; Glen Leonhardt, Cavour, vice-president; Grace LaROUP, Flandreau, secretary-treasurer; Bernard Wallmouth of Conde and Glenn Sievers of Westlington are the Board of Control members.

At our first meeting we decided to have a Freshman-Junior party on November 21. A committee was selected and they, with the assistance of a committee from the Freshman class, are making all arrangements for the program and entertainment.

Our class enrollment this year totals approximately 60 members and a large number have turned out for extra-curricular activities. In the basket ball tournament which will be held soon, we hope to have a team which not only our class, but the entire school will be proud of. The spirit which prevails in the Junior class is the real Aggie spirit. We hope to benefit not only ourselves but also the school while we are here.

ATHLETICS

(Continued from page one)

many of the boys will be able to fill the places of those who graduated.

The games are not all scheduled for the regular Aggie team as yet. There will be many games played before Christmas.

The inter scholastic games and tournament will be held before Christmas.

There will be a ring set up and Boxing will start in a week or so under the direction of Sergeant Shultz. The ring will probably be used for the last couple of months.

There will be matches between the classes and possibly with other schools.

R. O. T. C. Officers of the Junior Unit Have First Mess

The officers of the Junior Unit of the R. O. T. C. have their first mess October twenty-eighth at six forty-five. The Mess was held in the basement of the Just-A-Mere Tearoom. All of the cadet officers and the regular army officers were present.

After dinner was over the Mess was called to order by Artz, chairman, Clarence Opsahl. Short talks were then given by Mr. Scarbrough and all of the regular army officers. All business was left for the next Mess which will be held on November 20. The Mess then adjourned.

The second Officers' Mess met on November 12 in the basement of the Just-A-Mere Tearoom, Clar-

Remember the greatness of the occasion which marked the close of a year of hardships, the bloodiest, and the most terrible war of all time. Let us hope, and do all in our power to make it the last.

THE AGGIE NEWS—NOVEMBER 18, 1930.
The Hobo Day Parade Oct. 25, was a greater success than ever and all who attended the parade had come from out of town to view the parade, attend the game, and be in on the excitement connected with State College Homecoming. The parade left the campus at ten-thirty. It was over two miles in length and took about five hours to complete. It was a very enjoyable event and no one left the parade empty-handed.

The Hobo Day Parade is one of the largest and most important events of the year for the students of State College. It is held on the campus of the university and is a tradition that has been going on for many years. The parade is a great way for the students to show their school spirit and excitement for the upcoming football game. It is a fun and festive occasion that brings together the entire student body to celebrate the spirit of the university.

The parade features a variety of floats, including student clubs, organizations, and groups from different parts of the state. It also includes music, color guards, and marching bands, adding to the excitement of the event. The parade concludes with a football game, which is a highlight of the day for many students. Overall, the Hobo Day Parade is a wonderful tradition that brings together the university community in a fun and exciting way.
