PICNIC AT WATERTOWN JUNE 13th

REIFEL IS NEW PRESIDENT OF S. C. STUDENTS

Graduated from School of Agriculture in 1926—Continues College Work and Maintains High Scholarly Standing.

BENJAMIN REIFEL

Born at Rockport, S. D., on the 11th of February 1903, Ben Reifel is the son of Mr. and Mrs. E. W. Reifel. He graduated from the South Dakota State College in 1931. Ben is the new President of the State College Student Council. He also is a member of Sigma Alpha Iota, a national musical fraternity, and was active in various athletic and social activities. Ben has been elected to the Phi Kappa Phi honorary society and is a member of the National Scholastic Standing.

DEAN LARSON HONORED BY AGRICULTURE COLLEGE

The distinctive honor of being elected to the Dairyman's Hall of Fame at Pennsylvania State Agricultural college has recently been conferred on Dean E. L. Larson, of the agricultural division. Each year the students in the sophomore class of the dairy department at Penn State submit a list of 25 men whom they think have outstanding characteristics in the production and manufacturing phases of dairying. The men who receive the most votes on these lists are selected for the Hall of Fame for that particular year.

In the election of candidates to the Hall of Fame, six graduates of Iowa State College have received the highest possible number of votes. Among these, Dean Larson was selected.

As I (Lydia Stitt) was driving toward Avon from Scotland, some one in a car hailed me and when I stopped I had the pleasure of talking to one friend, Charles Schroeder of Freemoen, Charles and his friends were on their way to a rural church to put on a meeting that evening about eight miles south of Avon. He sends greetings to all of his Aggie friends.

GOV. W GREEN TO BE SPEAKER AT AGGIE PICNIC

The State Wide Get-Together Will Be Held at the State Fair Grounds, Lake Kam-
peska—Big Picnic Dinner, Spleen-
did Events Program Planned.

The board of regents last week voted $1000 of the money left in the State cigarette fund for some improvements on the Beard Memorial Library at State college. Profs. C. W. Pullenay said today.

Among unfinished work in the building which is under consideration at the present time, is the decoration of class rooms and seminar rooms, the president pointed out. Oh, he said, the fund can be used for extra lights in the main reading room, or for the construction of new book cases.

It is the aim of the authorities to use the money in the place where it is most needed, and consequently they are deliberating to discover the best use for it, Dr. Pullenay said.

No time has yet been set for the regents, but it is hoped to have the work under way as soon as possible.

Hutton Is Appointed to Represent State Grange

Prof. G. C. Hutton has recently been appointed to represent the State in the annual conference of the National Grange.

This voluntary citizen studies taxation, and aims to influence legislation concerning tax.

Eugene Thomas of Webster has been the principal of the Thomas farm this spring, while his father has been in the Veteran's Hospital. Eugene has been followed by community singing led by "Bad" Scarboro. Following the program everyone enjoys a big picnic dinner. Everyone is requested to bring their own food. The committee in charge of the dinner, Mary Solter Johnson and Grace master, will then give you instructions. After the big dinner James T. Jensen, 30, has an splendid program of sports lined up for the afternoon—everything from baseball to water sports.

Beadle county has challenged any county to a real kitchen ball game. So bring your baseball and kettleball equipment.

Lake Kampeska, South Dakota's greatest lake for water sports, sailing, boating and swimming possible for all who enjoy it. And then not very far from Stony Point is the City Park, where S. D. Threshermen's picnic will be going on. There you will find the Spider Web, the skating rink without a fence. A horse show tournament will be started early in the day. Boaters are not to win the prize offered. Bring your home- made horses.

Stony Point is located on the south side of Lake Kampeska. Bring your sports equipment. Hook up your floats.

Have a good time.

John Clink, '21, Parker, and Chalmor Costain, '23, Parker, re- ceived word Sunday with Ted Pro-

of,.31, of Marion. They report that Ted has a new automatic rifle and that in due time he will take away Aggie on for a content shooting gopher.

Foster Payne, '15, Faribau, N. D., gives only a few miles from Harvard. Strand, '32, Frederick. Several Aggies and alumni live in that district.

JORDAN SERVED AS HEAD STATE STUDENT ASSN.

Was Prominent in School of A Z Foresters, and Continued Work in College—Will Graduate With Class of '31.

JUNIOR ROTC TO CAMP AT FAIR SEPT. 14 TO 18

Members of Junior and Senior Classes Enrolled in Military Course Will Again Enroll West's Outing at Huron.

The annual South Dakota State Fair will open Monday, September fourteenth. The Fair continues for five days, closing with the evening program on Friday. Secretary White advises that exhibitors are showing a special interest in the 1901 fair. The first of the month more entries had been received than at the same time last year.

The entries in the harness races are fifty per cent greater than last year. This assures excellent racing for the grandstand events.

The Junior B. O. T. C. camp will again be a feature of the Fair this year. Plans are under way to have permanent barracks and a separate area for the B. O. T. C. boys. The membership of the camp will be made up of 1931-1932 senior men and a few junior fellows to fill the enrollment. Sergeant Hupp and Schultz will assist with the camp this year. The camp will be held during the following days:

PAY YOUR DUES
Several members of the Alumni Association have sent in their dues recently. The list shows that they have kept abreast of the times and that they are anxious to get on with any business that may be necessary. The Alumni Association has made arrangements for a dance to be held on the campus during the month of December. The proceeds from the dance will be used to help defray the expenses of the Alumni Association.

THE OLD AND THE NEW
The school year of 1930-1931 closed, March 25th. The school year of 1931-32 started on April 1st. During the year, new members of the Alumni Association have come. The school year started on April 1st.

Lyle Kennedy New Coach and Teacher for Aggies Next Year

The News is glad to introduce Mr. Lyle Kennedy, class of 1929, as the new coach and teacher for Aggie football next year. Mr. Kennedy will direct the athletic department and music department.

Lynne Kennedy

Lyle Kennedy, coach, program, and basketball coach. Lyle Kennedy, class of 1929, was a member of the basketball team last year. His home is in Newland, Butte County. He is an Aggie graduate, receiving his degree in everything of interest to the school. During his senior year he was a member of the basketball association and major of the Junior College. He now is a member of the Officers Reserve Corps.

After finishing the Aggie school, Lyle entered the college and is a senior this year. He is an Aggie graduate and can give his full time to his studies and with his class next June. His students will be pleased to have Mr. Kennedy as a member of the Aggie faculty next year.

COMMENCEMENT EXERCISES TO BE JUNE 12TH
Friday, June 12 brings to a close the 1931 St. John's College at 150 students forming the oldest class ever to graduate from the college. The exercises will be held at 3:00 p.m. in the Stockyard Amphitheatre.

The exercises will be held at 3:00 p.m. in the Stockyard Amphitheatre.

STUDENT CENTRAL MEET
State college lost their upper class in the Normal Central Conference, Saturday, June 12th. The normal Central Conference is held at the State college of Idaho.

THE SCHOOL OF AGRICULTURE IN THE STATE OF IDAHO

The School of Agriculture in the State of Idaho is one of the largest and best in the country. The School of Agriculture is located in the State of Idaho, in the city of Boise. The School of Agriculture is one of the largest and best in the country.

The School of Agriculture is one of the largest and best in the country. It is located in the State of Idaho, in the city of Boise. The School of Agriculture is one of the largest and best in the country.

Eunice Warner plans to take summer school at the Madison college in the summer of 1931. She will be in the city of Madison, in the state of Wisconsin.

Hugh Watt has purchased a new sports car. Hugh expects to play in the Stetsonelle and to be ready for work in the Aggie band and orchestra next school year.

Mr. Abraim, who attended the Aggie band during the first year it was organized, 1906, is a Chrysler wholesaler and is looking forward to the opening of the new season. Mr. Abraim will be purchasing a new car and will be at the games.

Brooke will cooperate with the Blue Key on their Home Day at State college, which is held on Friday, July 17, 1931. This Home Day is the beginning of the usual two-day annual event. The games will be one of the sport events. The Blue Key will arrange for the games and other events will be held.

1161 Students Enrolled at State
Eleven hundred and sixty one students are enrolled at State college this year. The total enrollment is 1161 students. The total number of students who have graduated from the college is 344, members 150, and the total number of students who have graduated from the college is 344, members 150, and the total number of students.

The School of Agriculture Calendar 1931-1932
October 19-20, Monday, Tuesday-Enrollment
October 21, Wednesday-Class work begins at 8 a.m.
November 11, Wednesday-Armitage Day, a holiday
November 26, 27, 28, Thursday, Friday-Spring, Saturday-Thanksgiving recess beginning at noon on Wednesday, November 25
December 18, Friday-Christmas recess begins at noon on January 5, Tuesday-Class work resumed at 8 a.m.
R. O. T. C. battalion will join in patriotic observance of the day
February 9-13, Tuesday-Saturday-Farm and Home Week
March 20, Sunday—Sermon to Graduates
March 24, Thursday-Closing exercises of School of Agriculture at 10 a.m.
March 24, Thursday—Work of School of Agriculture closes at noon.
NEWS FROM OUT OF THE STATE

Kennet Kusten, Humboldt, has his hands full helping with many jobs at the home farm. Chalm Colton, Parker, has been busy springing this operation a Farm-All tractor. He has a 40-acre farm near the mouth of the Big Sioux River. Weldon Wirt, Parker, has been operating a 15-30 McCormick-Deering tractor and other farm implements this spring in addition to raising and selling potatoes. You may see him working with many others on the farm.

Paul Gubrud is acting as chief engineer for the Textile Mill of Scotland, and he is hard at work endeavoring to keep the project is doing fine. A recent report states that the 850 workers involved are doing a fine job of spinning and weaving. The mill is expected to be completed in the near future.

Helen Wagner Carries Profitable Summer Project

A tomato project means to raise four acre-fifths of tomatoes. As many ripe tomatoes as possible are to be picked and brought to market, and one wishing them. The est of the crop is to be canned in tins for home use and at several local stores. It is possible to have ripe toma- toes the first part of July if they are planted and cared for in the proper manner. The demonstration on May 5th, Ben Reifel, "The Yarious family, formerly of St. Lawrence, S. D., have moved to a farm in addition to raising and selling potatoes. They are working with their father on the farm.

James L. Jenison, "Haron, is employed by the Ovati Dairy in Watertown, Lake C. S. where he has been working for three years. He is a member of the Dale Club and is active in the church. He is planning to attend the Aggie picnic at Watertown, Lake C. S. on June 1st and 2nd, at the farm home of Mr. and Mrs. Jenison, June 1st and 2nd.

Agriculures are still going strong. The harvest of the corn is well under way. Corn Planters are used during the early part of the month. Maxine Kiltl, Clark Senior Agriculturist, and others will be visiting farmers during the early rainy months. The planting and mulching of the crops also continues. The moisture conditions have been very much improved by the recent rain. The drought continued for several weeks, and was made worse by the hot weather. At one time the drought was very disagreeable with a good deal of crop damage.

The weather was cold and windy the day the plants were brought home. It was necessary to place them in the basement for three weeks, as it was feared they would be damaged. The plants were purchased at State college green house. The plants were$2.95 a hundred, and there were 3000 plants. The plants were in good order and would be a good root system. The weather was cold and windy the day the plants were brought home. It was necessary to place them in the basement for three weeks, as it was feared they would be damaged. The plants were purchased at State college green house. The plants were$2.95 a hundred, and there were 3000 plants. The plants were in good order and would be a good root system.

From this project I have gained both financial support and knowledge of the record. The project has proven the real value to practical farmers. Anyone who wishes to go to school cannot carry a project of this sort and earn enough money for a year in school. Helen Wagner, Dodge, S. D. concludes the project.
Home Projects Among Aggie Girls During Summer

A splendid showing of Home Project work has been revealed through home visits and reports.

Louise Larson, senior, of Hendricks, Minn., is carrying a Clothing and Bread Baking project. These problems were selected to aid in sharing the responsibilities of the home. All of the bread baking is to be done by Louise. It is to be made a practical problem by making as many variations of products as possible. The clothing problem will include all the family sewing.

Evelyn Goos, sophomore, of Gary became sole housekeeper a few days after arriving home as her parents made a trip into Iowa. Evelyn found many opportunities of applying the new principles learned in school the past year. The work she did consisted of the making of a silk dress and several other garments for herself.

Violet Weiss, senior, of Hetland, selected a tomato project for this year's work. One-fourth acre of ground has been prepared for the transplanting of the tomato plants. The ground was first plowed, disked and harrowed. Mr. Franke will have charge of the transplanting of some three hundred plants on this area of ground. The plants will be put in the first week in June after the danger of frost has passed.

Alice Gustafson, junior, of Bryant has had satisfactory results in her cake making project. The aim of this project is to become a skilled cake baker. She has used a variety of new recipes. It has been discovered that all recipes found in magazines and papers are not always accurate in proportions of ingredients. She made a cake from a recipe found in a daily paper. When the ingredients were combined they proved to be a very small cake. In comparing the ingredients of this cake with a standard recipe it was much more expensive. Oven temperature and length of time for baking are two of the problems studied in connection with this project.

Alice Ratcliffe, senior, of Carpenters found the Home Improvement project very interesting. She has finished the walls in the living room and kitchen. It was necessary to remove the old wall paper from the walls in the living room. The only way this could be done was by applying hot water and scraping it off. Several pieces of furniture had the finish improved with a coat of varnish. The wood work in the kitchen was painted to harmonize with the wall finish. Her next project is to reface the walls, woodwork and floors of the bedrooms upstairs. The selecting and hanging of curtains will be another project worked out in this project.

Maxine, senior, and June Klatt, sophomores, of Clark both plan to complete projects. Maxine has taken over all the home baking for the family of ten people. Her report shows a great variety of products. During April her report shows that eight batches of bread and a variety of rolls were baked. A crop of four kinds of pies and five kinds of cakes and cookies were made. Variation of products is one of the aims of this problem. June is carrying a sewing project to a degree. June has been able to finish as far, as her time is taken up with work out of doors with small ducks and chickens.

Roberta Meyers, senior of Fredrik, has made definite plans for a Room Improvement project. The plans include the selection of a general color scheme together with the type of wall and floor finish. A dresser and chair are to be refinished. The dressing table is to be made over to harmonize with the curtains and bedspread selected.

All the room accessories such as dresser scarfs and pillows are to be handmade.

Jennie Smith, senior, of Pipestone, Minn., has carried a very worthwhile Home Improvement problem. She has selected very suitable color schemes and painted the walls of all downstairs rooms. The bed room was painted a delicate shade of blue. The dining room and living room painted the same shade of tan. The upstairs rooms are to be refinished before her capping project begins.

Besides this work Jennie devotes considerable time to her music. Every Friday night is devoted to orchestra practice.

Rose Paulson, senior, of Plattsburg is keeping house for three of her brothers. The whole management of the house is left to Rose. During April she papered the kitchen walls and painted the woodwork and floors. The principles of art and design have been well carried out in the harmony of color schemes and room arrangement. Together with this work the summer's supply of meat has been caned.

Grace Lathrop, senior, of Flinton, is employed at the Western D. C. Smith's home in Brookings. She is reporting on a General Housekeeping project. This type of project includes all phases of home activities.

Anna Smiars, sophomore, of Anderso finds it possible to put into practice some of the plans of homemaking as she keeps house for her father. Along with the daily routine of work she is carrying a clothing project. Anna also has a flock of small chickens to care for.

Mercedes Sagnness, junior, of Sherman is carrying a sewing project and has made several dresses. Home visits have not been made to the homes of all the girls at this date. All the girls have sent in very complete reports. Reports received are as follows:

- Linda Anderson, Howard—Clothing project.
- Alice Erland, Howard—Clothing project.
- Genevieve Nelsen, Hamill—Clothing project.
- Elizabeth NeIl, Hayes—Room improvement.
- Claris Oien, Renner—Tomato and clothing project.
- Eltie Olson, Glenham—Poultry and clothing projects.
- Jessie Sanders, Burke—Home gardening and canning projects.
- Clara Raad, Howard—Home baking project.
- Olga Schlinkat, Menno—Clothing project.
- Helen Wagner, Parkton—Clothing project.

Junior RTC to Camp at Fair Sept. 14 to 18

(Continued from page 1) The personal direction of Lieutenant Colonel P. J. Seaford. All seniors should make their plans and arrange the home work so they may spend the week at the Fair. The enrollment blanks will be sent to the students about the first of August.

We hope we may have room for all who wish to spend the week at the camp. A week at the State Fair is an education in itself. The training the Aggies get in working with people and the handling of the large crowds that pack the grandstand and bleachers each afternoon and evening, is hard work, intensely interesting and a real experience. Many of our students should enter exhibits in many of the classes at the Fair. Drop a card to John White, secretary, Huron, S. D., for a premium list.

Ray, '22, and Merle Hagmann, '23, still live on their farm north of Ashton. They farm on a big scale. A modern metal machine shed is found on one of the important buildings on their farm.

Donald E. Cook who attended the School of Agriculture 1915-1917, is located on a small farm near Plankinton. He buys and sells livestock in that district.

Nellie Downer Downing, '12, is carrying on from a long illness. She was confined to her bed with nervous prostration on May 26, 1909, and is still in a serious condition.

Alfred Kasten, '15, is farming south of Humboldt.
