Collegian Index
2004-2005

Introduction

This index provides subject access to the South Dakota State University *Collegian*. Included are all articles written by the newspaper staff as well as wire-service news stories. Excluded are brief announcements and notices.

This index covers August 2004 through April 2005.

Although this is a computer-assisted index, subject headings are not automatically assigned from key words in headlines. Whenever the headline words do not accurately reflect the content of the article, appropriate subject headings are assigned. Names of the editor, columnists, and staff writers on the opinion page are included in subject headings. Excluded are names of those writing letters to the editor and other reporters.

Subject entries are limited to eighteen characters, including spacing. Thus, abbreviations and incomplete headings are sometimes necessary. For example, Student Association elections are listed as SA-ELECTIONS. A cross reference is made whenever necessary (e.g.: STUDENTS' ASSOCIATION see SA). Place names in subject entries are also abbreviated to save space (cities and states in two letters, countries in three letters) but are spelled out in the notation.

The following abbreviations are used throughout the index:

An asterisk (*) at the beginning of a notation indicates that an illustration accompanies the story.

(L) at the end of a notation denotes a letter to the editor.

(ED) at the end of a notation signifies an editorial.

Whenever space allows, a reporter's name is included in parenthesis at the end of a notation.

Entries are arranged chronologically under each subject heading. The input record is composed of three fields:

1. Subject headings—e.g.: STUDENT UNION
2. A twelve-digit code containing the date (month, day, and year) and pagination (section, page, and column)—e.g.:

01 = January
25 = Day
2005 = Year 01/25/2005

A = Section
02 = Page
2 = Column A022

* = Illustration
3. The headline notation—e.g.: "UNION CONSTRUCTION IMPACTS LIFE ON CAMPUS"

Thus, an entry composed of the above units would read:

STUDENT UNION 01/25/2005 A022 *UNION CONSTRUCTION IMPACTS LIFE ON CAMPUS
