Collection Summary

Identifier
UA 8.2

Title
Jerome J. Lohr College of Engineering, Department of Electrical Engineering and Computer Science Records

Creator
Department of Electrical Engineering and Computer Science, Jerome J. Lohr College of Engineering, South Dakota State University

Dates
1967-2003

Extent
0.21 linear feet -- 1 small document case, electronic records

Language
English

Repository
South Dakota State University Archives and Special Collections, Hilton M. Briggs Library, Brookings, South Dakota.
**Access note**

This collection is open to researchers without restrictions. The materials in the Archives do not circulate and may be used in-house only.

**Preferred Citation**

*Name of item*. Jerome J. Lohr College of Engineering, Department of Electrical Engineering and Computer Science Records. UA 8.2. South Dakota State University Archives and Special Collections, Hilton M. Briggs Library, Brookings, South Dakota.

**Abstract**

The Electrical Engineering and Computer Science Department combines all aspects of electricity, electronics, hardware, and software into one multi-disciplinary unit, offering degree programs in Electrical Engineering and Computer Science with minors in Computer Science, Biomedical Engineering, and Software Engineering. This collection is composed of various materials pertaining to the Electrical Engineering and Computer Science Department. Included are brochures, programs, and newsletters.

**Historical Note**

Course work in electrical engineering was first taught at South Dakota State College in 1899. Physics and mechanical engineering, both of which served as foundation for the work in electrical engineering, were well established. An organization to provide for the instructional work in electrical engineering was arranged by enlarging the Department of Physics. This general arrangement continued without much change until 1909. In 1909, the Department of Electrical Engineering was organized as a separate department, and continues still.

The mission of the Department of Electrical Engineering is to provide a highly respected, rigorous and practical education in electrical engineering so that graduates may assume engineering position of responsibility and leadership. Another goal is to conduct meaningful research and scholarly activities with regional emphasis and to provide technical assistance in the field of electrical engineering to existing and emerging industries and businesses in South Dakota and to regional and global communities.
Contents Note

This collection is composed of various materials pertaining to the Electrical Engineering Department. Included are brochures, programs, and newsletters.

The 100th Anniversary of Electrical Engineering at South Dakota State University consists of a CD of digital photographs and other data related to the event's reception and banquet.

The Christmas newsletters appear to be directed at graduates of the department and include information on happenings in the department.

Key Words

South Dakota State University. Department of Electrical Engineering.

South Dakota State University. Department of Electrical Engineering and Computer Science.

Administrative Information

Conditions Governing Access

This collection is open to researchers without restrictions. The materials in the Archives do not circulate and may be used in-house only.

Researchers conducting extensive research are asked to make an advance appointment to access archival material. Please call or e-mail prior to visiting the collection and indicate as much detail as possible about a particular topic and intended use.

South Dakota State University supports access to the materials, published and unpublished, in its collections. Nonetheless, access to some items may be restricted as a result of their fragile condition or by contractual agreements with donors.

Copyright note

Copyright restrictions apply in different ways to different materials. Many of the documents and other historical materials in the Archives are in the public domain and may be reproduced and used in any way. There are other materials in the Archive carrying a copyright interest and must be used according to the provisions of Title 17 of the U.S. Code. The Archive issues a warning concerning copyright restrictions to every researcher who requests copies of documents. Although the copyright law is under constant
redefinition in the courts, it is ultimately the responsibility of the researcher to properly use copyrighted material.

Arranged and Described by
Crystal J. Gamradt, 1999 March 3, additions made August 19.
