The Great Plains Sociologist

(ISSN: 0896-0054)

A bi-annual journal

The Great Plains Sociologist (GPS) is published as a general sociology journal by the Great Plains Sociological Association. We publish articles of general interest to sociologists in the region and beyond. The organization primarily seeks to serve sociologists from the Great Plains; however, that does not limit material published in the journal by author or subject.

The following guidelines are offered to authors who wish to submit work to the GPS for publication:

1. Topics should be of interest to a wide audience of sociologists. This does not mean a majority must agree with findings or discussions. Popularity of findings plays no role in the decision to publish. Publication is based on quality of work.
2. We are unable to publish lengthy articles; brevity is required. Manuscripts should be in the range of 10 to 15 journal pages, with an absolute limit of 20 journal pages.
3. Many types of manuscripts will be considered for publication. We publish traditional research articles that empirically test hypotheses derived from social theory, thought pieces explicating ideas or investigating specific topics, and articles that focus on teaching techniques or experiences to name just a few.
4. Articles submitted for review should include **three copies** of the manuscript. Upon acceptance, one copy of the manuscript on a computer disk (pc computer compatible, WP 6.1 preferred, but not required) must be submitted.
5. Manuscripts submitted for publication should be sent to the journal editor and are then sent to at least two reviewers for comment and recommendation. The journal editor also reads submissions and has responsibility for the final decision to publish or not. The editor and reviewers may request that a manuscript be rewritten and resubmitted.
6. To preserve anonymity, please attach a cover page to the manuscript that contains authorship, address, and institutional affiliation. The next page should contain the title of the article only. The authorship page will be removed and retained by the editor to assure anonymity.
7. Manuscript format should follow *American Sociological Review* (ASR) form both for references and style. See a recent copy of the ASR as a style guide.
