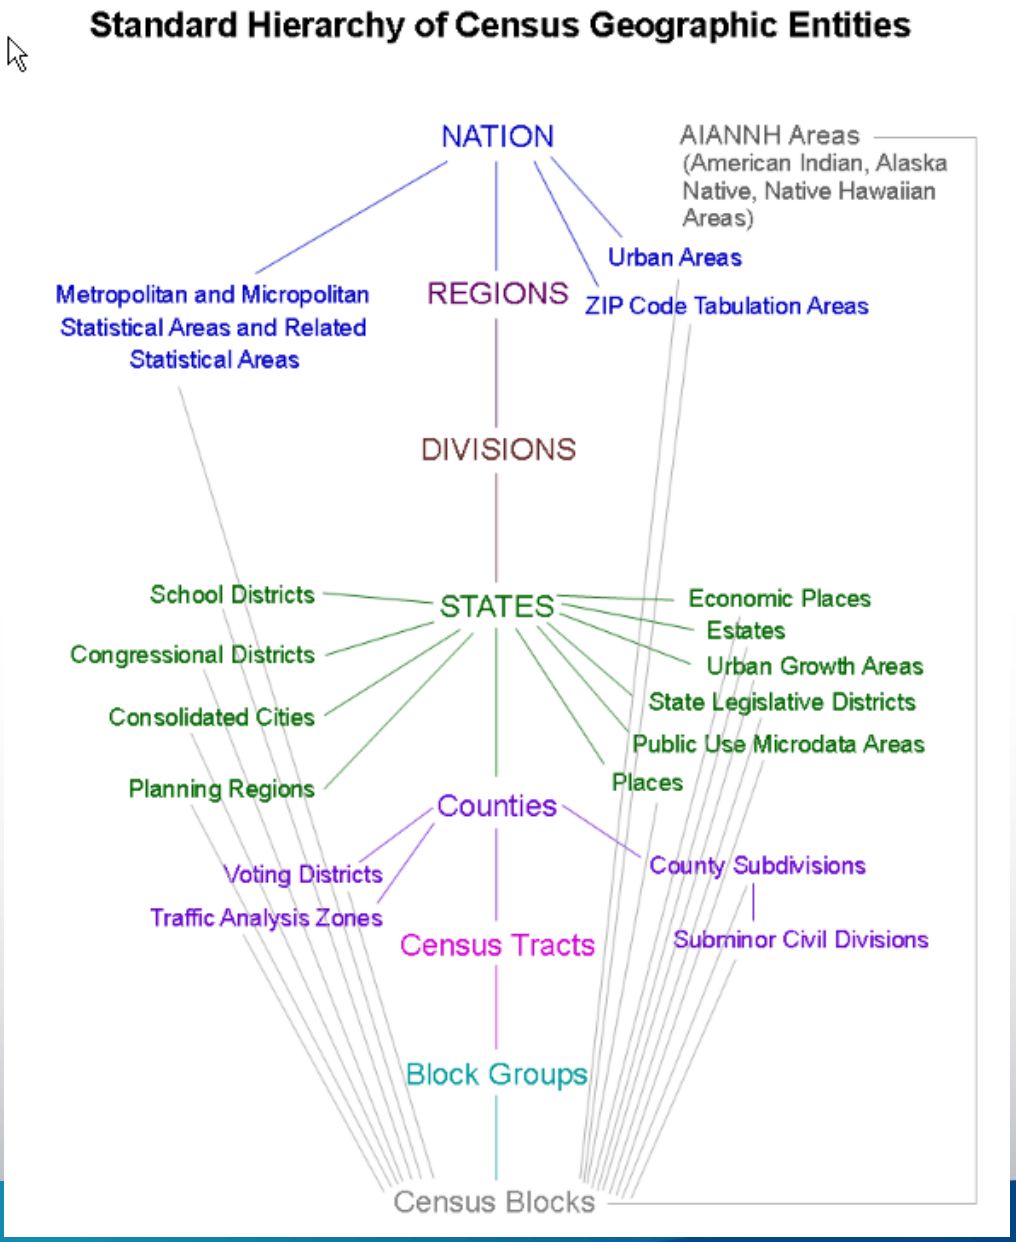
Geography Atlas https://www.census.gov/geo/reference/webatlas/

The standard hierarchy of census geographic entities displays the relationships between legal, administrative, and statistical boundaries maintained by the U.S. Census Bureau.



Census Business Builder:

Regional Analyst Edition (CBB: RAE) v. 2.2

https://cbb.census.gov/rae/#
https://cbb.census.gov/sbe/#

Small Business Edition is built primarily for small business owners who need key data for their business plan or to better understand their potential market. It presents data for a single type of business and geography at a time.

Regional Analyst Edition is built for chambers of commerce and regional planning staff who need a broad portrait of the people and businesses in their service area. It presents data for all sectors of the economy and for a user-defined region made up of one or more areas.

Census Business Builder:

https://cbb.census.gov/rae/#
https://cbb.census.gov/sbe/#

Key Features:

- Easy to use menus to select your type of business and location
- Interactive maps to browse data about the selected area and types of businesses
- Downloadable reports (including charts) that can be easily incorporated into your research
- Expanded, customizable dashboard
- Download data directly from the map
- New, interactive Profile Reports for Businesses and Regions
- Optimized for your smart phone or tablet
- Small Business Edition: Access to all types of businesses via a new NAICS Search
- Regional Analyst Edition: Build your region from either Cities/Towns or Counties
