- Census Office Roles:
- State Data Center (SDC) (MOU)
- State Representative on the Federal State Cooperative Population Estimate/Projections (FSCPE/P) (MOU)
- Governor's Liaison to the Census Bureau (Appointment)
- State's Executive Branch Representative on Legislative Redistricting (Appointment)

State Data Center (SDC)

Official source of the state's source of population and social economic data

- Public presentation
- News releases and newsletter
- Training on accessing data
- Assisting cities, counties, other state agencies, researchers, members of the public with access to detailed data
- Research and analysis (i.e. annual detailed poverty data for health department)
- Conduct annual demographic conference (First ever in ND 2016)

Federal State Cooperative Population Estimate/Projections (FSCPE/P)

Participate in Population Estimates and Projections

- Review and provide input on population and housing estimate data review at state, county, subcounty level
- Conduct the annual group quarters census
- Review and submit vital statistics data
- Prepare state-level population projection (published January 2016)
- Prepare state-level population estimate (In progress)

Governor's Liaison to the Census Bureau

Represent the State's Interest in Census Related Matters

- Working on creating a consolidated geographical data sharing MOU between the state and the Census Bureau (Current)
- Educate city and county employees on important of participating in various Census Bureau surveys (On going)
- Work with other state agencies (Human Services & Health Dept.) on data sharing with Census Bureau (Current)

University

Research

Comparison of State Agency vs. University Settings:

Advantages:

- Monitoring Census Bureau produce and activities and address concerns from a state's perspective become priority.
- Access to political and appointed officials is relatively easy Complete Count Commission
- Allows us to play the role of neutral party between research universities when collaborating on cross-campuses
- Ability to speak with authority to political subdivisions on census related matters.
- Easy to obtain state data as a state agency simply ask for it.
- Access to subject matter experts when compiled data to address Census Bureau requirements. I.e. Use state GIS data to identify issues with city boundaries
- Constituency support
- Continuity funded position

Comparison of State Agency vs. University:

Disadvantages:

Salary, etc.

- More difficult to obtain interdisciplinary review likely more difficult due to structure of government
- No such thing as free labor no graduate students
- No fee-based research

What Surprised US

Geography – has become a big part of what we do

- Boundary and Annexation Survey
- Block Boundary Suggestion Program Participation
- Local Update of Census Addresses (LUCA)
- Assisting / Training for cities to understand surveys, training on GUPS etc.

Counting for Dollars

16 Largest Federal Assistance Programs that Distribute Funds on Basis of Decennial Census-derived Statistics (Fiscal Year 2015)

Notes and Findings:

- The <u>Counting for Dollars Project</u> is identifying all federal financial assistance programs that rely on Decennial Census-derived data to guide the geographic distribution of funds.
- As an initial product, the project is publishing tables on the distribution, by state, of FY2015 funds from the 16 largest Census-guided programs.
- For every program except the National School Lunch Program, the fair and equitable distribution of funds to a state depends on the accurate measurement of its population count and characteristics.
- There is not a simple linear relationship between state population count and federal funds flow. The per capita figure allows cross-state comparisons of fiscal reliance on census-guided programs. It does not indicate the amount by which federal funding increases for each additional person counted.

Local Update of Census Addresses (LUCA)

 What is LUCA?: A local governments chance to ensure the Census Bureau has all your areas residential addresses correct

Why is LUCA important? The decennial census is first a count of housing units.
 Then a count of the number of residents in each housing unit.

 About the invitations: Written in "Federalize", May not convey the importance to the city or county that this program potentially has

Local Update of Census Addresses (LUCA)

- Congress mandated the creation of LUCA for the benefit of local communities
- Not for the benefit of the Census Bureau!!!

The Census must count every person living in the United States on April 1, 2010.

Before you answer Question 1, count the people living in this house, apartment, or mobile home using our guidelines

 Count all people, including bables, who live and sleep here most of the time.

The Census Bureau also conducts counts in institutions and other places, so:

- Do not count anyone living away either at college or in the Armed Forces.
- Do not count anyone in a nursing home, jail, prison, detention facility, etc., on April 1, 2010.
- Leave these people off your form, even if they will return to live here after they leave college, the nursing home, the military, jall, etc. Otherwise, they may be counted twice.

The Census must also include people without a permanent place to stay, so:

- If someone who has no permanent place to stay is staying here on April 1, 2010, count that person. Otherwise, he or she may be missed in the census.
- How many people were living or staying in this house, apartment, or mobile home on April 1, 2010?

Number of people =

2.	Were	there any additional people staying here
