

Data at South Dakota Department of Education

5th Annual South Dakota Demography Conference
October 2017

Sara Kock
SD-STARS Project Manager

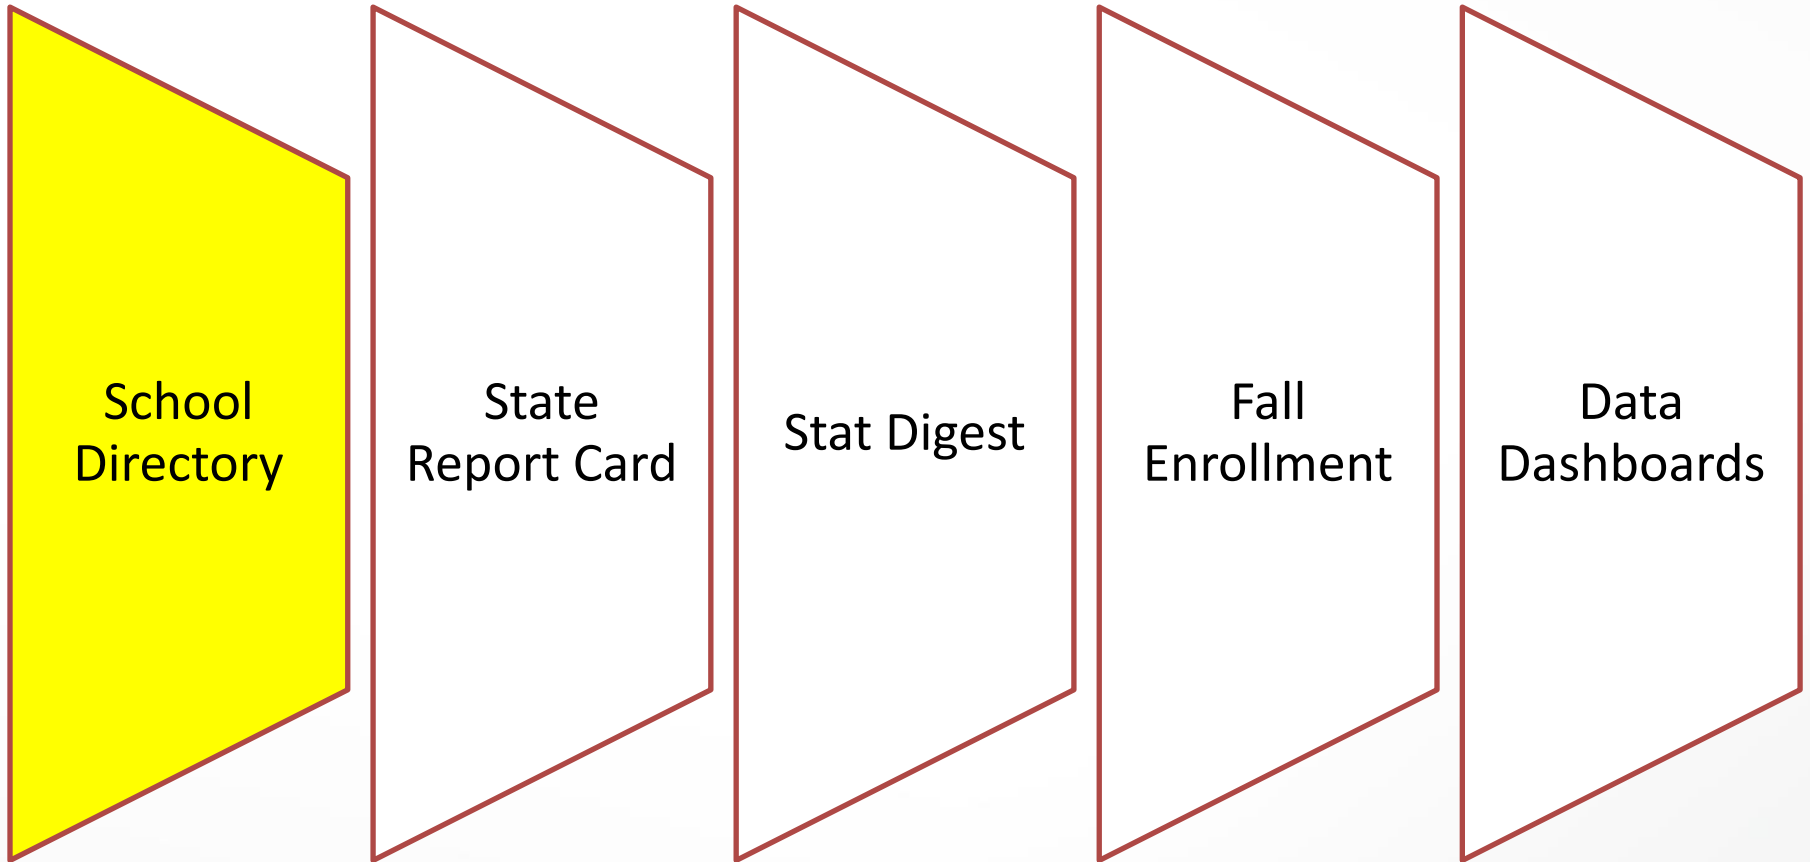

- AmeriCorps and Afterschool Supervisor, Madison, WI
- 4th and 5th grade teacher, Mission, SD
- Graduate school in Public Policy, UW-Madison
- Started with SDDOE in 2012 as project manager for SD-STARS

Today, I'm representing the department to share...

- (1) what public data are available and where to find it
- (2) what data are available internally and what you would need to do
- (3) some thoughts on non-SDDOE data – BOR and USED

PUBLIC DATA AND WHERE TO FIND IT

- Public data is usually suppressed based on N size < 10
- Aggregated reporting by grade, district, school, and/or subgroup

- Contact: Judy Merriman, Jennifer Rattling Leaf
- Contains
 - Accredited schools by district type
 - Approved programs
 - Contact names
 - Contact phones/addresses/emails/fax
- A list of structure changes (ex: closed schools, open schools, changes in school names) can be found

REPORT CARD

[State Report Card](#)

[School, District, and State level Report Cards \(Updated Fall 2017\)](#)

[Interactive Report Card Data Dashboards \(Updated Fall 2016\)](#)

Click Here

The 2017 Report Cards continue to report on South Dakota's accountability system as defined in the state's ESEA flexibility waiver. This is the final year of Report Cards under the waiver.

This year's report cards look similar to the previous year. Important elements include:

- **Academic Growth** remains as an indicator for elementary and middle schools;
- Student Achievement scores are based on adding together three years of performance on the state assessments;
- College and Career Readiness incorporates performance on the Smarter Balanced assessment, in addition to the ACT and Accuplacer, and therefore looks at the college readiness of all graduates. Therefore, this indicator now more accurately reflects how prepared South Dakota's high school graduates are for college.

The overall system continues to be based on a 100-point **School Performance Index (SPI)**, consisting of multiple indicators to measure a school's performance. These indicators are different at the elementary and high school levels.

South Dakota will transition to the **Every Student Succeeds Act**, for the 2017-18 school year. Because this is the final year of the transition from the waiver to ESSA, schools have new SPI scores but classifications remain those that were made in 2015.

2016-17 School Performance Index Scores

Report Card Dashboards

The dashboards below allow the public to access the 2014-15 and 2015-16 Report Card results in an interactive, easy to understand format. They also provide an easier comparison among schools and districts on the report card's performance indicators.

Please note that in order to protect student privacy, not all information is available for all schools and/or subgroups of students.

For further information on the report card and its components, please visit the report card page at: <http://doe.sd.gov/reportcard/>

Student Achievement

Understand the relationship between school and district performance on the English language arts and math summative assessments.

Academic Growth

Review the percentage of students at schools and districts meeting growth standard, as measured by performance on the English language arts and math summative assessments.

Attendance

Compare the percentage of students at the school and district levels, and by subgroup, meeting the state's goal of attending 94 percent or more of enrolled days.

Graduation and Completer Rates

Understand the relationship between school and district graduation rates and high school

Elementary and Middle School Level School Performance Index Results

Compare the SPI points earned among elementary and middle schools on each indicator and their overall point totals.

High School Level School Performance Index Results

Compare the SPI points earned among high schools on each indicator and their overall point totals.

Elementary and Middle School Accountability Overview

View the overall performance of elementary and middle schools and districts on each of the SPI indicators.

High School Accountability Overview

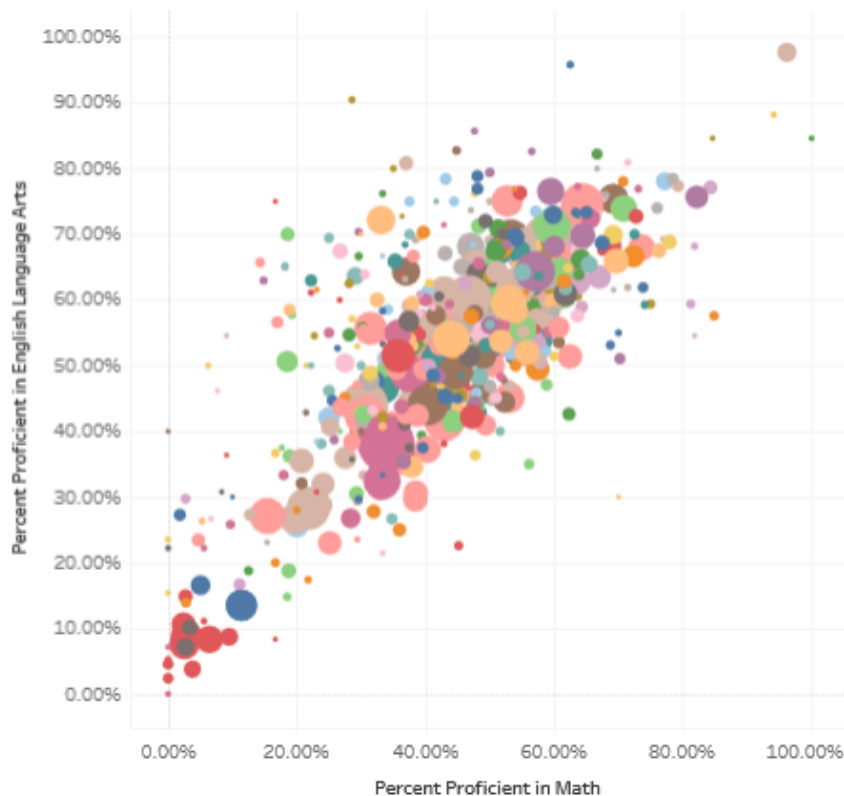

View the overall performance of high schools and districts on each of the SPI indicators.

Student Achievement

Below shows the relationship between each school's proficiency rate on the English language arts and math summative assessments. Proficiency is equal to scoring either a level 3 or 4 on the state summative assessments. For more information on assessments, please [click here](#).

The size of the dot equates to the number of students tested. Hover over the dots to find the details. To navigate among school years, select certain schools or districts, or view the performance of different subgroups of students, select the desired values from the selectors at the right of the graph.

Calculation Guide

2016-2017 School Performance Index and Accountability Report Card

This resource will answer frequently asked questions regarding South Dakota's accountability system. Additional information can be found at: <http://doe.sd.gov/Accountability/spi.aspx>.

The SPI

South Dakota's accountability system is based on a 100-point School Performance Index (SPI). The SPI consists of three key indicators, with a numeric value assigned to each of the indicators, to measure a school's performance. These values are added to create a total SPI score out of 100 points. The SPI recognizes both achievement and growth, while providing schools with unique student achievement targets that encourage continuous and ongoing improvement. This year's system, the last under the state's No Child Left Behind Flexibility Waiver, is similar to the information reported for 2015-16 on how students can demonstrate they are on track to becoming college, career, and life ready.

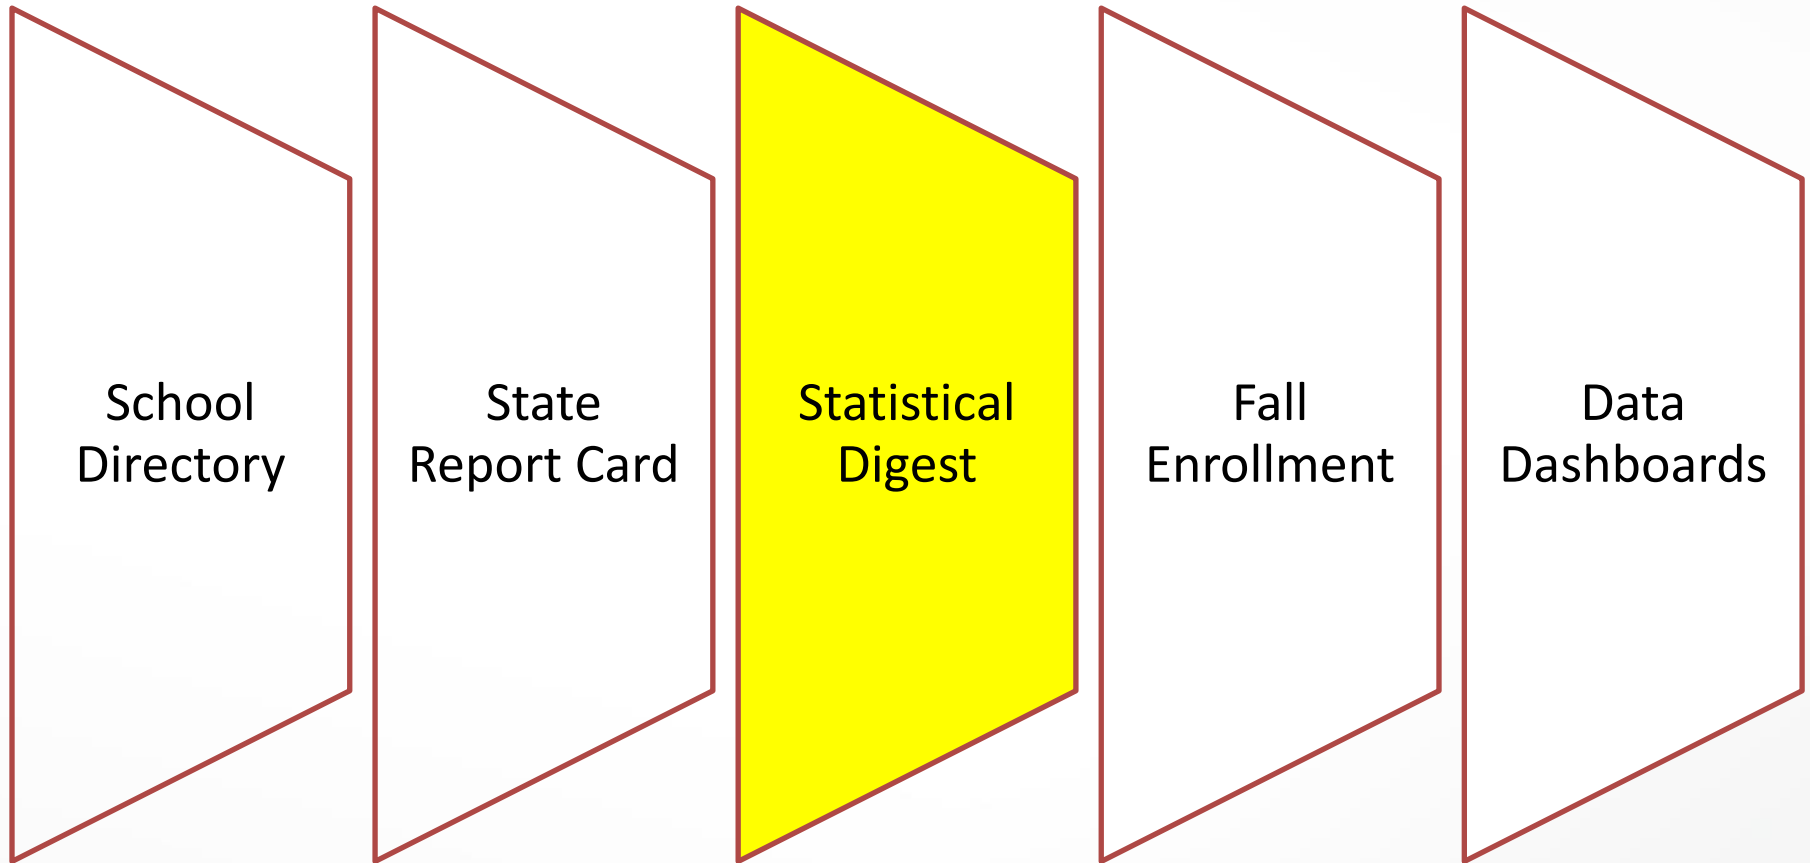

The accountability system incorporates three key indicators of school performance, described below.

Although the Every Student Succeeds Act (ESSA) was signed into law on December 10, 2015 and replaces the No Child Left Behind Act, all states including South Dakota remain under their previous accountability systems for this school year. Please see our website, <http://doe.sd.gov/secretary/essa.aspx> for more information and updates on South Dakota's implementation of ESSA.

Indicator #1: Student Achievement

- Private Report Cards available to districts in SD-STARS
- Contact: Abby Jaurek
- The future of the state report card
 - More interactive, less PDFs
 - More data about more topics (ex: post-secondary enrollment, preschool enrollment, accelerated coursework)
 - Different look
 - More information can be found in the State Plan Proposal:
<http://www.doe.sd.gov/secretary/essa.aspx>

- Public data is usually suppressed based on N size < 10
- Aggregated reporting by grade, district, school, and/or subgroup

- Put together by State Aid Team
- Contact: Susan Woodmansey, Bobbi Leiferman
- Combines many sources of data into many different spreadsheets and a PDF “profile”
- Contains
 - Student, enrollment, and ACT data
 - Teacher and staff data
 - Accountability data
 - Funding information including: Cost per ADM, state aid, end fund balances, taxable valuations, levy rates, revenue, expenditures, and other funds.

Student Enrollment Data

The enrollment reports below reflect the number of students enrolled at a district on the last Friday in September. To be included in the count, students must be enrolled more than 49 percent of the school day. These numbers may differ from state aid fall enrollment, which is calculated in a slightly different way. In short, state aid fall enrollment includes all of the students for whom a district is financially responsible.

Any of the links will give you an excel file.

Data Dashboards

DOE makes data available to the public through a variety of reporting avenues. The data dashboards take statewide information and present it in a visual format that is interactive, easy to understand, and engaging for public consumption.

Below is a list of available dashboards. Click on the name to access it. If you have any questions, contact the SD Department of Education at (605) 773-3134.

To view Report Card dashboards, please visit: doe.sd.gov/reportcard/dashboards.

How Many Districts Are Utilizing Capital Outlay Flexibilities?

How Are Capital Outlay Flexibilities Being Spent?

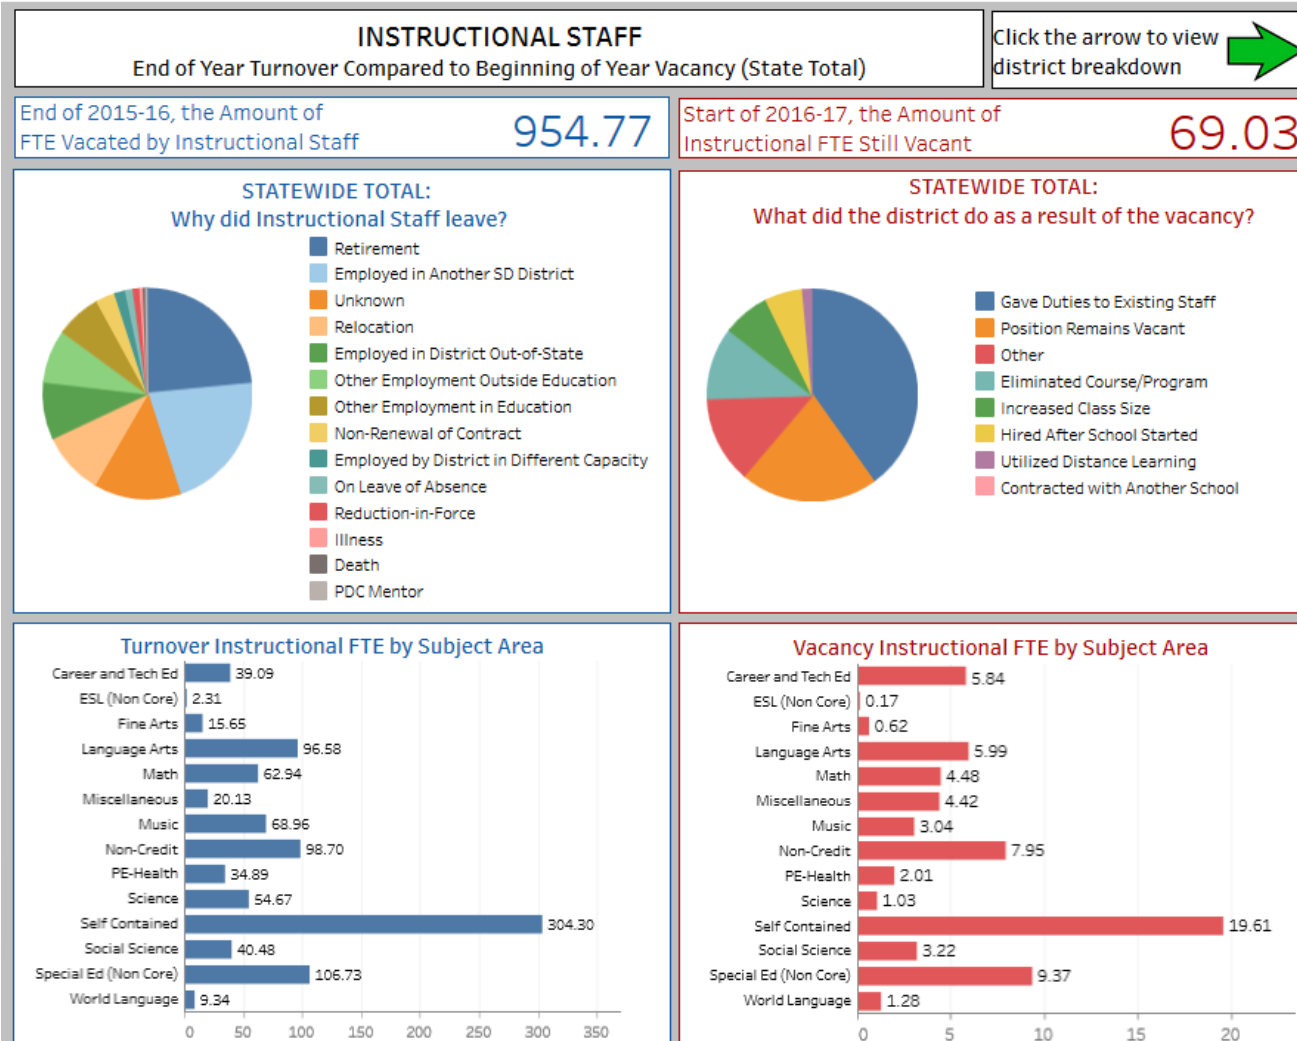

Utilization of Capital Outlay Flexibilities and Change in General Fund Balances

Comparison of ALL Others and Select Other Revenues Per State Aid Fall Enrollment

Instructional Staff Turnover And Vacancy (State Total)

This dashboard provides amount of Full-Time Employee (FTE) Instructional Staff positions resulting from turnover in South Dakota public schools. It also shows what FTE remain vacant at the beginning of the following year. Breakdowns of FTE by subject area are available for both turnover and vacancy. It also provides the reasons why staff did not return as well as what the district did as a result of the vacant position. [View district breakdown.](#)

INTERNAL DATA AND WHAT YOU WOULD NEED TO DO

1. If you want suppressed data that are not available on the public website...
2. If you want data at a student level...
3. If you want to do a research study...

**If the reason is
#2 or #3**

- Must align with SDDOE goals and objectives
- Approved by Secretary of the department
- IRB approval
- FERPA compliant
- Require a Data Sharing Agreement
- Must return or destroy the data once done
- Penalties for violation

Data Request Process

Data Request Form

The South Dakota Department of Education provides a great deal of information on our website. Please see the [Data Center](#) for links to a number of resources already available. When more detailed data is needed, a [data request form](#) must be completed.

When completing the Data Request form, you must be very specific so that we can provide you with the data you are requesting. Please note that all cells with less than 10 students will be suppressed to protect the student's privacy.

Pursuant to SDCL Chapter 1-27, if there are costs involved in the fulfillment of your data request, the Department of Education will provide you with a time/cost estimate prior to moving forward with the data request.

Those individuals seeking data for research purposes must meet the following criteria:

1. The research aligns with the South Dakota Department of Education's goals and objectives and approval of the Department.
2. Researchers must complete the Data Request form and are subject to the same cost requirements as stated above.
3. Researchers must provide verification of their approval under an Institutional Review Board (IRB).
4. The conditions in FERPA regulation 34 CFR 99.31(a) (6) are met.
5. A Data Sharing Agreement is signed to ensure compliance with FERPA regulations and DOE policies.
6. Researcher agrees to return or destroy education records at completion of research use.
7. Researcher understands associated penalties for violation of data privacy, use or re-disclosure.

Contact

All questions should be addressed to: [Judy Merriman](#), SD Department of Education, (605) 773-4737

The first step for any data request is to complete the data request form.

Sometimes there are costs.

OTHER EDUCATIONAL DATA

- USED is a source for much educational data
 - States report aggregated data to the federal government using *EdFacts*. Multiple files are submitted throughout the year. Much of the data supplied in *EdFacts* is used in NCES/IES research and USED monitoring.
 - USED also administers the NAEP assessment, which is given to a sampling of 4th and 8th graders.
 - USED collects **from districts** data for the Civil Rights Data Collection. This data is also used in USED research. SDDOE currently has no part in this collection.

- Board of Regents - <https://www.sdbor.edu/dashboards/Pages/default.aspx>
 - High School Transition report – How well do first-year students from South Dakota high schools perform during their first year of college?
