## THE ACADEMIC PROCESSIONAL

The academic procession which officially precludes the graduation ceremonies on college and university campuses is one of the old and colorful customs which link 20th century education with its early origins.

To signalize the achievements of their students, American institutions of higher learning conduct a formal ceremony to award the appropriate degrees earned at the conclusion of prescribed study. The action of taking the degree—associate, bachelor's, master's or doctor's—as well as the designation of the day itself—is Commencement.

Various explanations of the term Commencement are possible. The most likely is that centuries ago the bachelor, originally an apprentice, began his apprenticeship upon that day; and with the degree of M.A. and Ph.D.—the masters and the doctors commenced their work upon the day their degrees were conferred. So today, the student, having finished his preliminary training, sets out upon the career for which he has prepared.

The academic regalia worn at Commencement is of medieval origin. The scholars of Bologna, Salamanca, Paris, Oxford, Cambridge, Louvain and Heidelberg dressed in a manner to distinguish themselves from the merchants and other townsmen. Since the 11th century, when the rise of the universities began, "learned clerks" robed themselves in gowns, caps and hoods, thus marking a difference between "town and gown."

By this apparel they were recognized as belonging to the teaching guild which was the Guild of the Master of Arts. In this organization the bachelor was the apprentice of the master. This relationship was the forerunner of today's academic structure; which often includes graduate and/or teaching assistants (usually studying for advanced degrees).

In our time customs vary as to the wearing of academic gowns. In the older English universities the masters or dons continue to wear such garments while engaged in instructional duties; students are required to wear gowns while attending lectures or during tutorials. Ordinarily in Germany, Spain, Austria, and some other European universities, academic regalia is worn only on certain stipulated occasions as in America today.

Generally in Europe, a professor wears the type of garment customary in the university where he is lecturing. In the United States our tradition differs; our professors continue to wear the gown and hood of the university where they received their highest degree.

The gown, in origin, may have been simply a type of overcoat to protect the teacher from the cold in the unheated buildings; the cut or style seems to be derived from ecclesiastical attire. It has usually been black. The gowns of bachelors and masters are usually without trimmings of any sort whereas those of doctors are faced down the front with velvet and adorned with three velvet bars on the sleeves.

The cap or "mortarboard" may have come from the squarish cap worn by the masons of the Middle Ages, or perhaps was suggested by the shape of the books which occupied so much of the time of the scholar. Attached to a button on the "mortarboard" is a tassel; bachelor's and master's are black or color appropriate to the subject; those of doctors black or golden. The tassel is worn on the left side by those who are receiving or have received a degree.

The hood, a triangular fold of cloth worn over the back of the gown, is faced with colors which denote the field of study represented by the wearer's degree; the colors of the lining are those of the college or university from which the degree was granted. The length of the hood is correspondingly longer with each higher degree.

The wide velvet borders extending down the front of the doctoral gown, the velvet bar on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer. The most usual of these are:

White . . . . . Arts and Letters	Light Blue . . . . . Education
Copper . . . . . Economics	Blue . . . . . Philosophy
Orange . . . . . Engineering	Sage Green . . . . . Physical Education
Brown . . . . . Fine Arts	Gold . . . . . Science
Lemon . . . . . Library Science	Scarlet . . . . . Theology

At South Dakota State University the color of the tassel signifies the college in which the degree is earned:

Agriculture . . . . . Maize	Home Economics . . . . . Maroon
Arts and Science, B.A. . . . . White	Nursing . . . . . Apricot
B.S. . . . . Gold	Pharmacy . . . . . Green
Engineering . . . . . Orange
