IV. School District Atlas, by Counties
W. F. Kumlien

Where Mellette County Common Districts (with Closed or Open Schools) Sent Elementary Children as Tuition Pupils During 1944-45.

Source: Mellette County and Town Superintendents of Schools

Legend:
- School Closed; Pupils Sent to Other Schools (arrow indicates receiving school)
- Numbers in Circles indicates Common School Enrollment During the 1944-45 Term
- Numbers Within Town District Areas Indicate Total Elementary Tuition Pupils Attending in 1944-45.

Mellette County has 15 districts and 23 schools that are still operating. Another 23 Common Schools are closed at present. For the state as a whole, 968 common schools (closed or open) are sending tuition pupils to town or consolidated schools, while 585 are sending tuition pupils to neighboring common schools.

Department of Rural Sociology
Agricultural Experiment Station of the South Dakota State College of Agriculture and Mechanic Arts, Brookings, S. D.
Explanatory Note

This pamphlet is the fourth to be published in a projected series of four, pertaining to local school units in South Dakota. Sub-titles for each of the fields covered are:

(1) School Districts
(2) School Attendance Areas
(3) Special Problems of the Small High School
(4) School District Atlas, By Counties (this pamphlet)

The main purpose of this pamphlet is to furnish: (1) a detailed series of county maps portraying all of the public school districts by type in South Dakota. (2) The location of all common schools operating in each county with their respective enrollment as of 1944-45. (3) The location of all common schools from which their respective districts are sending pupils as tuition students either to neighboring common schools or to town and consolidated schools. (4) A summary at the end in which is given the number of schools by counties and indicating where each school has sent its tuition pupils for 1944-45. The data in this study was obtained principally from two separate questionnaires, one sent to county superintendents, and the other sent to town and consolidated school superintendents.

Acknowledgements are due to both groups of superintendents answering the questionnaires, and to the State Superintendent of Public Instruction for furnishing certain basic materials.

TABLE OF CONTENTS

I. Explanatory Note..........................................................1

APPENDIX

TABLE I.

The Number of Schools* (Closed or Open), by Counties, Sending Elementary Children as Tuition Pupils to Town or Consolidated Schools or to Other Neighboring Common Schools During 1944-45.

* In certain instances closed or open Common Schools sending tuition students elsewhere, have been counted twice. This happened where some Common Schools sent part of their tuition pupils to town-centered Independent or Consolidated Schools while others were sent to neighboring Common Schools. Such a division of tuition pupils being sent from the same school may have been due to distance from a suitable receiving school, or because certain parents may have expressed a wish for their children to be sent to one or the other type of school.
Appendix: The Number of Schools, by Counties, Sending Students as Tuition Pupils to Either Neighboring Schools, or Town or Consolidated Schools.
