Explanatory Note

This pamphlet is a (1950) revision of the fourth to be published in a projected series of four, pertaining to local school units in South Dakota. Sub-titles for each of the fields covered are:

(1) School Districts
(2) School Attendance Areas
(3) Special Problems of the Small High School
(4) School District Atlas, By Counties (this pamphlet)

The main purpose of this pamphlet is to furnish: (1) A detailed series of county maps portraying all of the public school districts by type in South Dakota. (2) The location of all common schools operating in each county with their respective enrollment as of 1949-50. (3) The location of all common schools from which their respective districts are sending pupils as tuition students either to neighboring common schools or to town and consolidated schools. (4) A summary at the end in which is given the number of schools by counties and indicating where each school has sent its tuition pupils for 1949-50. The data in this study was obtained principally from two separate questionnaires, one sent to county superintendents, and the other sent to town and consolidated school superintendents.

Acknowledgements are due to both groups of superintendents answering the questionnaires, and to the State Superintendent of Public Instruction for furnishing certain basic materials.

APPENDIX

TABLE I.

The Number of Schools* (Closed or Open), by Counties, Sending Elementary Children as Tuition Pupils to Town or Consolidated Schools or to Other Neighboring Common Schools During 1949-50.

* In certain instances closed or open Common Schools sending tuition students elsewhere, have been counted twice. This has happened where some Common Schools sent part of their tuition pupils to town-centered Independent or Consolidated Schools while others were sent to neighboring Common Schools. Such a division of tuition pupils being sent from the same school may have been due to distance from a suitable receiving school, or because certain parents may have expressed a wish for their children to be sent to one or the other type of school.
The approximate number of schools, by Counties, Sending Students as Tuition Pupils to Either Neighboring Schools, or to Town or Consolidated Schools.
