# Table of Tables

|  | Page |
|--|------|
| I. COUNTIES RANKED BY TOTAL POPULATION   |      |
| 1. Total County Population, 1970 . . . . .   | 9    |
| 2. Number Change in Population, 1960 to 1970 . . . . .   | 9    |
| 3. Percent Change in Population, 1960 to 1970 . . . . .  | 9    |
| 4. Percent County is of State's Total Population, 1970 . . . . .                               | 10   |
| 5. Number of Urban Population, 1970 . . . . .  | 10   |
| 6. Percent Urban Population, 1970 . . . . .  | 10   |
| 7. Number of Rural Population, 1970 . . . . .  | 11   |
| 8. Percent Rural Nonfarm Population, 1970 . . . . .  | 11   |
| 9. Percent Rural Farm Population, 1970 . . . . .   | 11   |
| II. COUNTIES RANKED BY NET MIGRATION   |      |
| 10. Estimated Migration in Number, 1960 to 1970 . . . . .                                      | 12   |
| 11. Estimated Migration 1960 to 1970 as Percent of 1960<br>Population . . . . .                | 12   |
| III. COUNTIES RANKED BY LAND AREA AND POPULATION DENSITY                                       |      |
| 12. Land Area in Square Miles, 1970 . . . . .  | 13   |
| 13. Population Density Per Square Mile, 1970 . . . . .   | 13   |
| 14. Rural Farm Population Density Per Square Mile, 1970 . . . . .                              | 13   |
| IV. COUNTIES RANKED BY AGE GROUPS AND RELATED RATIOS   |      |
| 15. Percent of Population Under 5 Years of Age, 1970 . . . . .                                 | 14   |
| 16. Percent Change in Number of Population Under 5 Years<br>of Age, 1960 to 1970 . . . . .     | 14   |
| 17. Percent of Population Under 18 Years of Age, 1970 . . . . .                                | 14   |
| 18. Percent Change in Number of Population Under 18 Years<br>of Age, 1960 to 1970 . . . . .    | 15   |
| 19. Percent of Population 18 to 65 Years of Age, 1970 . . . . .                                | 15   |
| 20. Percent Change in Number of Population 18 to 65 Years<br>of Age, 1960 to 1970 . . . . .    | 15   |
| 21. Percent of Population 65 Years of Age and Over, 1970 . . . . .                             | 16   |
| 22. Percent Change in Number of Population 65 Years of<br>Age and Over, 1960 to 1970 . . . . . | 16   |
| 23. Median Age, 1970 (In Years) . . . . .  | 16   |
| 24. Change in Median Age, 1960 to 1970 (In Years) . . . . .                                    | 17   |
| 25. Index of Aging, 1970 . . . . .   | 17   |
| 26. Young Adult Ratio, 1970 . . . . .  | 17   |
| 27. Sex Ratio, 1970 . . . . .  | 18   |
| 28. Percent Change in Sex Ratio, 1960 to 1970 . . . . .  | 18   |
| 29. Youth Dependency Ratio, 1970 . . . . .   | 18   |
| 30. Aged Dependency Ratio, 1970 . . . . .  | 19   |
| 31. Total Dependency Ratio, 1970 . . . . .   | 19   |

## V. COUNTIES RANKED BY VITAL STATISTICS AND FERTILITY RATIOS

|   |    |
|---|----|
| 32. Total Number of Births, 1960 to 1970 . . . . .            | 20 |
| 33. Total Number of Deaths, 1960 to 1970 . . . . .            | 20 |
| 34. Fertility Ratio, 1970 . . . . .                           | 21 |
| 35. Percent Change in Fertility Ratio, 1960 to 1970 . . . . . | 21 |

## VI. COUNTIES RANKED BY MARITAL, FAMILY AND HOUSEHOLD CHARACTERISTICS

|   |    |
|---|----|
| 36. Percent of Females 14 Years Old and Over Married, 1970 . .  | 22 |
| 37. Percent of Males 14 Years Old and Over Married, 1970 . . .  | 22 |
| 38. Percent of Females 14 Years Old and Over Widowed, 1970 . .  | 22 |
| 39. Percent of Males 14 Years Old and Over Widowed, 1970 . . .  | 23 |
| 40. Number of Families, 1970 . . . . .                          | 23 |
| 41. Number of Households, 1970 . . . . .                        | 23 |
| 42. Percent Change in Number of Households, 1960 to 1970 . . .  | 24 |
| 43. Population Per Household, 1970 . . . . .                    | 24 |
| 44. Percent of Total Population in Group Quarters, 1970 . . . . | 24 |

## VII. COUNTIES RANKED BY HOUSING CHARACTERISTICS

|   |    |
|---|----|
| 45. Total Housing Units, 1970 . . . . .   | 25 |
| 46. Number of Year-Round Housing Units, 1970 . . . . .                                  | 25 |
| 47. Number of Occupied Units, 1970 . . . . .  | 25 |
| 48. Number of Owner Occupied Units, 1970 . . . . .                                      | 26 |
| 49. Number of Renter Occupied Units, 1970 . . . . .                                     | 26 |
| 50. Number of Year-Round Housing Units Vacant, 1970 . . . . .                           | 26 |
| 51. Number of Occupied Units Lacking Some or All Plumbing<br>Facilities, 1970 . . . . . | 27 |
| 52. Median Value (Dollars) of Owner Occupied Units, 1970 . . .                          | 27 |
| 53. Median Contract Rent (Dollars), 1970 . . . . .                                      | 28 |
| 54. Total Number of Mobile Homes, 1970 . . . . .  | 28 |

## VIII. COUNTIES RANKED BY MEDIAN YEARS OF FORMAL EDUCATION

|  |    |
|--|----|
| 55. Median School Years Completed (Persons 25 Years Old<br>and Over), 1970 . . . . . | 29 |
| 56. Median School Years Completed (Persons 25 Years Old<br>and Over), 1960 . . . . . | 29 |
| 57. Percent High School Graduates, 1970 . . . . .                                    | 29 |

## IX. COUNTIES RANKED BY FAMILY INCOME AND POVERTY LEVELS

|  |    |
|--|----|
| 58. Median Family Income (Dollars), 1970 . . . . .   | 30 |
| 59. Percent of Families with Income of \$15,000 or More, 1970 .                            | 30 |
| 60. Percent of Families with Income of \$10,000 or More, 1970 .                            | 30 |
| 61. Percent of Families with Incomes Less Than Poverty<br>Level, 1970 . . . . .            | 31 |
| 62. Percent of Families with Public Assistance or Public<br>Welfare Income, 1970 . . . . . | 31 |
| 63. Percent of Families with Social Security Income, 1970 . . .                            | 32 |
| 64. Percent of Rural Farm Families Below Poverty Level, 1970 .                             | 32 |

## X. COUNTIES RANKED BY POPULATION IN LABOR FORCE

|  |    |
|--|----|
| 65. Percent of Males 16 Years Old and Over in Labor Force, 1970 . . . . .      | 33 |
| 66. Percent of Females 16 Years Old and Over in Labor Force, 1970 . . . . .    | 33 |
| 67. Percent of Married Women, Husbands Present, in Labor Force, 1970 . . . . . | 33 |

## XI. COUNTIES RANKED BY NON-WHITE POPULATION

|   |    |
|---|----|
| 68. Total Non-White Population, 1970 . . . . .                          | 34 |
| 69. Percent Non-White Population is of Total Population, 1970 . . . . . | 34 |
| 70. Total Indian Population, 1970 . . . . .                             | 35 |
| 71. Percent Indian Population is of Total Population, 1970 . . . . .    | 35 |

## XII. COUNTIES RANKED BY NUMBER AND SIZE OF FARMS

|  |    |
|--|----|
| 72. Number of Farms, 1969 . . . . .  | 36 |
| 73. Number of Farms, 1964 . . . . .  | 36 |
| 74. Percent Change in Number of Farms, 1964 to 1969 . . . . .                      | 36 |
| 75. Average Size of Farms, 1969 . . . . .  | 37 |
| 76. Percent Change in Average Size of Farms, 1964 to 1969 . . . . .                | 37 |
| 77. Percent of Farms Under 140 Acres, 1969 . . . . .                               | 37 |
| 78. Percent Change in Number of Farms Under 140 Acres, 1964 to 1969 . . . . .      | 38 |
| 79. Percent of Farms 140-219 Acres, 1969 . . . . .                                 | 38 |
| 80. Percent Change in Number of Farms 140-219 Acres, 1964 to 1969 . . . . .        | 38 |
| 81. Percent of Farms 220-499 Acres, 1969 . . . . .                                 | 39 |
| 82. Percent Change in Number of Farms 220-499 Acres, 1964 to 1969 . . . . .        | 39 |
| 83. Percent of Farms 500-999 Acres, 1969 . . . . .                                 | 39 |
| 84. Percent Change in Number of Farms 500-999 Acres, 1964 to 1969 . . . . .        | 40 |
| 85. Percent of Farms 1,000 Acres and Over, 1969 . . . . .                          | 40 |
| 86. Percent Change in Number of Farms 1,000 Acres and Over, 1964 to 1969 . . . . . | 40 |

## XIII. COUNTIES RANKED BY SELECTED CHARACTERISTICS OF FARM OPERATORS

|  |    |
|--|----|
| 87. Number of Farm Operators, 1969 . . . . .   | 41 |
| 88. Percent Change in Number of Farm Operators, 1964 to 1969 . . . . .                   | 41 |
| 89. Average Age of Farm Operators, 1969 . . . . .  | 41 |
| 90. Percent of Farm Tenancy, 1969 . . . . .  | 42 |
| 91. Change in Proportion of Farm Tenancy, 1964 to 1969 . . . . .                         | 42 |
| 92. Percent of Farm Operators Residing Off Farm Operated, 1969 . . . . .                 | 42 |
| 93. Percent of Farm Operators Working Off Farm Operated 100 Days or More, 1969 . . . . . | 43 |

| 105. Percent Class I - V Farms Are of All Farms, 1969 . . . . .  | 48   |
| 106. Percent of Class I - V Farms in Class I, 1969 . . . . .   | 48   |
| 107. Percent of Class I - V Farms in Class II, 1969 . . . . .  | 49   |
| 108. Percent of Class I - V Farms in Class III, 1969 . . . . .   | 49   |
| 109. Percent of Class I - V Farms in Class IV, 1969 . . . . .  | 49   |
| 110. Percent of Class I - V Farms in Class V, 1969 . . . . .   | 50   |
| 111. Average Value of Land and Buildings Per Class I - V<br>Farm, 1969 . . . . .   | 50   |
| 112. Average Farm Production Expenses Per Class I - V Farm,<br>1969 . . . . .  | 50   |
| 113. Percent of Class I - V Farms with Farm Production<br>Expenses Less Than \$10,000, 1969 . . . . .                    | 51   |
| 114. Percent of Class I - V Farms with Farm Production<br>Expenses Over \$20,000, 1969 . . . . .                         | 51   |
| 115. Proportion of Class I - V Farms Irrigated in 1969 . . . . .   | 51   |
| 116. Average Acres of Irrigated Land Per Class I - V Farm, 1969 . . . . .  | 52   |
| 117. Proportion of Class I - V Farms Irrigated in Last 5<br>Years, 1969 . . . . .  | 52   |
| 118. Average Acres of Irrigated Land Per Class I - V Farm<br>in Last 5 Years, 1969 . . . . .                             | 52   |

# Introduction

This publication has been prepared because of many requests for 1970 population, housing, and farm information for the counties in South Dakota. Requests for an earlier publication of this type based on the 1960 U. S. Census indicate that South Dakotans feel a very strong need for basic population information to keep abreast of rapid social and economic changes in the state. This is particularly true for those in such positions as community leaders, county agents, educators, legislators, and business, professional, and labor leaders. The ever present problem these leaders face in obtaining reliable up-to-date information in a form that is useful to them is staggering. This new, updated publication attempts to perform just that kind of service.

The information here is based on the most recent official United States Census Reports for South Dakota's population, housing, and farms.<sup>1</sup> This information is presented for each county of the state, and the counties are ranked in order to show the relative position of each county with respect to the particular item under consideration. State totals or averages are given so the position of the county can be compared with that of the state as a whole. Wherever available, United States averages are given so that the state, or the county, can be compared with the nation.

Users of census data are cautioned regarding the nature of information in the tables of this publication. Many tables involve use of terms which have special definitions developed by the United States Census Bureau to provide concise, basic definitions of census concepts which appear in their printed reports. Definitions of these concepts (terms) and explanations of tables are provided in the Appendix. Data in some tables are based on sample surveys. These involve collection of information from a part (sample) of a population with the assumption that the characteristics noted in the sample reflect those of the whole population. All tables based on sample data are indicated in the Appendix by size of sample. Persons using sample data in statistical analysis are reminded that caution must be exercised when results are evaluated.

Three other population bulletins in this series on South Dakota's 1970 population published by South Dakota State University Agricultural Experiment Station contain additional information. They are:

1. South Dakota Population and Net Migration, 1960-1970. Bulletin 580, February 1971.
2. Population Change of South Dakota Counties and Incorporated Places, 1940-1970: Reference Tables. Bulletin 586, July 1971.
3. South Dakota Population Age and Sex Structure, 1960-1970. Bulletin 599, June 1972.

---

<sup>1</sup>Sources used for this publication are given in the bibliography. Cooperation of the U. S. Bureau of the Census and the Office of Vital Statistics, South Dakota Department of Health, Pierre, South Dakota is hereby acknowledged.

## Total Population

TABLE 1. TOTAL COUNTY POPULATION, 1970

| County Rank               | Number  |
|---------------------------|---------|
| State Total . . . . .     | 665,507 |
| 1. Minnehaha . . . . .    | 95,209  |
| 2. Pennington . . . . .   | 59,349  |
| 3. Brown . . . . .        | 36,920  |
| 4. Brookings . . . . .    | 22,158  |
| 5. Beadle . . . . .       | 20,877  |

\*Data withheld to avoid disclosure  
of information for individual farms

# Appendix

## EXPLANATION OF TABLES

- Table 3. Percent Change: Calculated by taking the difference in the numbers for the two years (1960 and 1970) and dividing it by the 1960 figure.
- Table 5. Urban Population: In 1970, the urban population included all those people living in incorporated and unincorporated places of 2,500 inhabitants or more and other territory, incorporated or unincorporated, included in urbanized areas.
- Table 6. Urban Population: See explanation for table 5.
- Table 7. Rural Population: Includes both farm and nonfarm residents in places under 2,500 inhabitants and open country.
- Table 8. Rural Nonfarm: In the 1970 Census the rural nonfarm population consists of all the rural population outside the category of rural farm (see definition of rural farm below).  
Sample: Information based on 20 percent of the population.
- Table 9. Rural Farm: In the 1970 Census the farm population consists of persons living on places of 10 or more acres from which sales of farm products amounted to \$50 or more in the preceding calendar year or on places of less than 10 acres from which sales of farm products amounted to \$250 or more in the preceding year.  
Sample: Information based on 20 percent of the population.
- Table 10. Migration: Migration as presented in tables 10 and 11 is net migration. Net migration of the population is the balance of out-migration offset by in-migration. Net migration was determined by subtracting the potential 1970 population (1960 population plus births minus deaths) from the actual 1970 Census population. If the potential population is larger than the actual population then we find a negative number indicating the estimated amount of net out-migration. If the actual population is larger than the potential population we find a positive number indicating the estimated amount of net in-migration.
- Table 11. Migration: See explanation for table 10.
- Table 14. Rural Farm: See explanation for table 9 (sq. miles of farmland).
- Table 16. Percent Change: See explanation for table 3.
- Table 18. Percent Change: See explanation for table 3.
- Table 20. Percent Change: See explanation for table 3.

- Table 22. Percent Change: See explanation for table 3.
- Table 23. Median: A form of "average," the "middle" value, or that value which is exceeded by as many values as it exceeds. It divides the measures into two equal parts such that one-half are larger and one-half are smaller than the "median."
- Table 24. Median: See explanation for table 23.  
Change in Median Age: The difference in years between the 1960 and the 1970 median ages.
- Table 25. Index of Aging: A ratio of the old to the young segment of a population which is a fairly sensitive indicator of the aging process. Calculated by dividing the number of persons 65 years of age and over by those under 15 years of age and multiplying the result by 100.
- Table 26. Young Adult Ratio: A measure which focuses attention on that segment of a population which contains those individuals who are actually (or potentially) in the early stages of the family building process. Calculated by dividing the number of persons 15-34 years of age by the total of those 0-14 years of age and 35 years of age and over, and multiplying the result by 100.
- Table 27. Sex Ratio: Number of males per 100 females.
- Table 28. Percent Change: See explanation for table 3.  
Sex Ratio: See explanation for table 27.
- Table 29. Youth Dependency Ratio: Based on the fact that there is an approximate lower limit of productive power (age 15 in this instance) and theoretically, all below this limit are economically dependent upon the economically productive proportion of the population. Calculated by dividing the number of people aged 15-64 into the number of people under 15 years of age, and multiplying the result by 100. A ratio of 48 would mean that there are 48 people under the age of 15 for every 100 aged 15-64.
- Table 30. Aged Dependency Ratio: Based on the fact that there is a theoretical upper limit of productive power (aged 65 in this instance) and all individuals above this limit are economically dependent upon the economically productive proportion of the population. Calculated by dividing the number of those aged 15-64 into the number of people 65 years of age and over, and multiplying the result by 100. A population with an aged dependency ratio of 10 has 10 people 65 years of age and over to every 100 people aged 15-64.

Table 31. Total Dependency Ratio: The basis for the dependency ratio is the idea that certain age groups in the population are generally productive and other age groups are generally dependent upon the efforts of the productive group. Of course, the term "dependent" will always be somewhat arbitrary and there will be exceptions. Nevertheless, it has become customary to refer to the population under 15 and over 65 years of age as the dependent population and the population 15 through 64 years as the productive population. Calculated by adding the number of inhabitants 0-14 years of age and the number of inhabitants 65 years of age and over and dividing this total by the number of people 15-64 years of age and multiplying the result by 100. A total dependency ratio is equal to the sum of the youth dependency and aged dependency ratios of a particular population.

Table 32. Births: Includes the number of recorded live births occurring within the decade April 1, 1960 to April 1, 1970. This information was obtained from the South Dakota Department of Public Health, Office of Vital Statistics.

Table 33. Deaths: Includes the number of recorded deaths occurring within the decade April 1, 1960 to April 1, 1970. This information was obtained from the South Dakota Department of Public Health, Office of Vital Statistics.

Table 34. Fertility Ratio: *(Child - woman ratio).* A more refined measure of fertility which eliminates the influence or differences in population size and in the proportion of females in the population being compared.

*For 1970 it was* It is based on census data and is calculated by dividing the number of children under 5 years of age by the number of women ages 15 to 45 and multiplying the result by 1,000. ~~The U.S.~~ *For 1980 it is*  
~~Census bases its ratio on women ages 15 to 49.~~  
*based on the*

Table 35. Percent Change: See explanation for table 3.  
Fertility Ratio: See explanation for table 34.

Table 41. Household: A household, according to the 1970 Census, includes all the persons who occupy a group of rooms or a single room which constitutes a housing unit.

Table 42. Percent Change: See explanation for table 3.  
Household: See explanation for table 41.

Table 43. Household: See explanation for table 41.

Table 44. Group Quarters: All persons who are not members of households are regarded as living in group quarters. Group quarters are living arrangements for institutional inmates, or for groups containing five or more persons unrelated to the person in charge, whose quarters are not divided into housing units. Group quarters are located most frequently in institutions,

*NOTE:*

*To compare the two years it is necessary to divide the number of children under 5 years of age by the sum of the females 15-49 and multiply the result by 100.*

lodging and boarding houses, military barracks, college dormitories, and so forth.

- Table 46. Year-Round Housing Units: All occupied units plus vacant units which are intended for year-round use.
- Table 47. Occupied Units: A housing unit is classified as occupied if a person or group of persons is living in it at the time of enumeration or if the occupants are only temporarily absent, for example, on vacation.
- Table 48. Owner Occupied Units: A housing unit is "owner occupied" if the owner or co-owner lives in the unit, even if it is mortgaged or not fully paid for. A cooperative or condominium unit is "owner occupied" only if the owner or co-owner lives in it.
- Table 49. Renter Occupied Units: All housing units not classified as "owner occupied" are classified as "renter occupied," including units rented for cash rent and those occupied without payment of cash rent.
- Table 50. Year-Round Housing Units: See explanation for table 46.  
Vacant: A housing unit is vacant if no one is living in it at the time of enumeration, unless its occupants are only temporarily absent.
- Table 51. Occupied Units: See explanation for table 47.  
Lacking Some or All Plumbing Facilities: Units lacking toilet facilities, bathing facilities, or hot piped water or any combination of these are classified as lacking some or all plumbing facilities. Also included are units having no piped water inside the structure, and units with toilet or bathing facilities which are also for the use of the occupants of other housing units.
- Table 52. Median: See explanation for table 23.  
Owner Occupied Units: See explanation for table 48.
- Table 53. Median: See explanation for table 23.  
Contract Rent: The monthly rent agreed to, or contracted for, regardless of any furnishings, utilities, or services that may be included.
- Table 55. Median: See explanation for table 23.
- Table 56. Median: See explanation for table 23.
- Table 58. Median: See explanation for table 23.  
Sample: Information based on 20 percent of the population.
- Table 59. Sample: Information based on 20 percent of the population.

- Table 60. Sample: Information based on 20 percent of the population.
- Table 61. Poverty Level: The poverty statistics are based on a definition originated by the Social Security Administration in 1964 and subsequently modified by a Federal Interagency Committee. The index provides a range of poverty income cutoffs adjusted by such factors as family size, sex of the family head, number of children under 18 years of age, and farm and nonfarm residence.  
Sample: Information based on 20 percent of the population.
- Table 62. Public Assistance or Public Welfare Income: This includes cash receipts of payments made under the following public assistance programs: aid to families with dependent children, old age assistance, general assistance, aid to the blind, and aid to the permanently and totally disabled.  
Sample: Information based on 20 percent of the population.
- Table 63. Social Security Income: This includes cash receipts of Social Security pensions, survivors' benefits, permanent disability insurance payments, and special benefit payments made by the Social Security Administration (under the National old-age, survivors, disability, and health insurance programs) before deductions of health insurance premiums. "Medicare" reimbursements are not included. Cash receipts of retirement, disability, and survivors' benefit payments made by the United States government under the Railroad Retirement Act are also included.  
Sample: Information based on 20 percent of the population.
- Table 64. Rural Farm: See explanation for table 9.  
Poverty Level: See explanation for table 61.  
Sample: Information based on 20 percent of the population.
- Table 65. Labor Force: Labor force includes all persons classified as employed or unemployed and also members of the Armed Services on active duty. Employed persons comprise all civilians 16 years of age and over who were at work for pay or profit, or worked without pay for 16 hours or more on a family farm or family business, or those who were with a job but were not working the day of the interview due to weather, industrial dispute, vacation, illness and other personal reasons.  
Sample: Information based on 20 percent of the population.
- Table 66. Labor Force: See explanation for table 65.  
Sample: Information based on 20 percent of the population.
- Table 67. Labor Force: See explanation for table 65.  
Sample: Information based on 20 percent of the population.
- Table 68. Non-White: The concept of race as used by the Census Bureau does not denote clear-cut scientific definitions of biological stock. Rather, it reflects self-identification by respondents.

The category "non-white" includes persons who indicated their "race" as Negro or Black, Indian, Japanese, Chinese, Filipino, Hawaiian, Korean, or a response suggesting non-Indo-European stock. For persons of mixed parentage who were in doubt as to their classification, the race of the person's father was used.

Table 69. Non-White: See explanation for table 68.

Table 70. Indian: This category includes persons who indicated their race as American Indian or who reported for this item only the name of an Indian tribe.

Table 71. Indian: See explanation for table 70.

Table 72. Farm: See explanation for table 9.

Table 73. Farm: See explanation for table 9.

Table 74. Percent Change: The "percent change" was calculated by finding the difference between the number in 1964 and in 1969 and then dividing that difference by the number in 1964.  
Farm: See explanation for table 9.

Table 75. Farm: See explanation for table 9.

Table 76. Percent Change: See explanation for table 74.  
Farm: See explanation for table 9.

Table 84. Percent Change: See explanation for table 74.  
Farm: See explanation for table 9.

Table 85. Farm: See explanation for table 9.

- Table 86. Percent Change: See explanation for table 74.  
Farm: See explanation for table 9.
- Table 87. Farm Operator: The term "farm operator" is used to designate a person who operated a farm either doing the work himself or directly supervising the work. He may be the owner, a member of the owner's household, a hired manager, or a tenant, renter or sharecropper. In the case of a partnership only one partner is considered as an operator. The number of farm operators is considered to be the same as the number of farms.
- Table 88. Percent Change: See explanation for table 74.  
Farm Operator: See explanation for table 87.
- Table 89. Farm Operator: See explanation for table 87.
- Table 90. Farm Tenant: A tenant is considered the operator of land leased, rented, or worked on shares.
- Table 91. Change in Proportion: Change in proportion is calculated by finding the proportion in 1969 and the proportion in 1964 and then subtracting the 1964 proportion from the 1969 proportion. The result from the subtraction is the change in proportion.  
Farm Tenant: See explanation for table 90.
- Table 92. Farm Operator: See explanation for table 87.
- Table 93. Farm Operator: See explanation for table 87.
- Table 94. Change in Proportion: See explanation for table 91.  
Farm Operator: See explanation for table 87.
- Table 95. Rural Farm: See explanation for table 9.  
Sample: Information based on 20 percent of the population.
- Table 96. Rural Farm: See explanation for table 9.  
Sample: Information based on 20 percent of the population.
- Table 97. Value of Farm Products Sold: This represents the market value, before taxes and expenses of all agricultural products sold in the census year, including livestock and poultry and their products, crops including nursery products and hay, forest products, and all miscellaneous farm products. The figures include landlords' and contractors' shares.
- Table 98. Percent Change: See explanation for table 74.  
Value of Farm Products Sold: See explanation for table 97.
- Table 99. Average Value of Land and Buildings: The average value of land and buildings was recorded according to the market value of the land and buildings on that farm. "Market value" was defined as

the price which the operator would expect to receive for the land and buildings if he were to sell on the day of enumeration. These values were then totaled and divided by the total sample of all farms for the county to get an average value.

Farm: See explanation for table 9.

Table 100. Percent Change: See explanation for table 74.  
Average Value of Land and Buildings: See explanation for table 99.

Table 102. Farm: See explanation for table 9.

Table 103. Farm: See explanation for table 9.

Table 104. Class I - V Farms: These include all farms which fall into one of the following economic classes:

Class I - \$40,000 or more of farm product sales

Class II - \$20,000 - \$39,999 of farm product sales

Class III - \$10,000 - \$19,999 of farm product sales

Class IV - \$5,000 - \$9,999 of farm product sales

Class V - \$2,500 - \$4,999 of farm product sales or having a value of products sold of less than \$2,500 provided they had the acreage or livestock operations which normally would have had sales in excess of \$2,500.

Table 105. Class I - V Farms: See explanation for table 104.
